The Library is automated using “ Easylib” Integrated Library Management System(ILMS)

Version:4.4.2 and Client Server Module. The software is fully automated.

Link: copy easylib link

Easylib Features and Functionalities

Easylib Web OPAC is interactive and fully customizable. Provides a one window search. In addition, You would be able to make your own announcements, build an Explore section, connect your partner libraries, showcase accomplishments, library timings, policies and many more. Easylib provides extensive features like Requisition, Acquisition, Cataloguing, Membership Management, Circulation, Periodicals and Web OPAC.

Improved Customer Service

Automation of the library helps take some of the workload off of librarians and other staff members in the areas of acquisitions, cataloging and circulation, which in turn allows them to better serve their patrons. This extra time can lead to more programs being facilitated in the library and make library staff available to answer reference questions and help people who having trouble researching or finding the right information.

OPAC (Online Public Access Catalogue) Facility

Easylib Web OPAC is interactive and fully customizable. Provides a one window search. It is computer based and supported library catalogue designed to be accessed via terminals so that library users may directly and effectively search for and retrieve bibliographic records without the assistance of a human intermediary. OPAC usually allows searching by author name, title, and subject.

Re: Annual Maintenance Charges (AMC) Payable towards Easylib Software

Dear Sir,

Please find the AMC invoice attached with this email. A few items to note:

1. Easylib is a mission critical application for your library and requires continuous monitoring and support. AMC enables you to avail service on Easylib software.
2. Visits and / or online support as needed as mentioned in the performance invoice. resolution of issues in using the software, additional training are provided as part of the AMC.
3. Considering the mission critical nature of Easylib application as well as licensing terms of certain components within Easylib application, AMC is mandatory and services provided only to AMC customers.
4. The AMC charges are derived based on average effort to provide service for the year. Monthly statements are sent each month to all customers.
5. Discount is provided on future upgrades.

We request you to kindly make the payment at the earliest time feasible.

We also want to update you that we now have launched
 Easylib ERP 7.2a for Campus Administration. Kindly call us for a demo.
 Easylib 6.4a for the libraries. To customers who are still using Easylib 4.4.2, we request you to upgrade to Easylib 6.4a. The customers who are already in Easylib Web 6.2a will get a free upgrade to Easylib Web 6.4a.
 Pricing for advanced Easylib Web version: 6.4a starts at Rs.60,000 per year on Easylib Cloud including AMC and server charges if you wish to have it hosted on Easylib cloud server. You do not need to maintain a server.

We look forward to you renewing your AMC as well as going for upgrades
 Thanks for your business!

The Library is automated using “Koha” Integrated Library Management System (ILMS)

Koha’s feature set continues to evolve and expand to meet the needs of its user base.

Full-featured ILS: For libraries of all sizes, Koha is a true enterprise-class ILS with comprehensive functionality including basic and advanced options. Koha includes modules for acquisitions, circulation, cataloging, serials management, authorities, flexible reporting, label printing, multi-format notices, offline circulation for when Internet access is not available, and much more. Koha will work for consortia of all sizes, multi-branch, and single-branch libraries.

- **Multilingual and translatable**
- **Full text searching:** Powerful searching, and an enhanced catalogue display that can use content from Amazon, Google, LibraryThing, Open Library, and Syndetics, among others.
- **Library Standards Compliant:** Koha is built using library standards and protocols such as MARC 21, UNIMARC, z39.50, SRU/SW, SIP2, SIP/NCIP, ensuring interoperability between Koha and other systems and technologies, while supporting existing workflows and tools.
- **Web-based Interfaces:** Koha’s OPAC, circ, management and self-checkout interfaces are all based on standards-compliant World Wide Web technologies–XHTML, CSS and Javascript–making Koha a truly platform-independent solution.

MCET Central Library & Information Centre uses Library software **Koha 21.05 with Ubuntu** for Library automation purpose.

Sub: Grant permission for Installing Library Software in Systems which are in Circulation Counter in Central Library and information Centre regd.

Respected Sir,

I want to bring to your notice that since 2010 we are using Easy-Lib Software, but since last two years it has been corrupted, and when we contact the technician who is dealing from Bangalore informed that to solve the problem or for re-installation we have to pay the annual-maintenance is 24,780/- and also forcing us to convert to Cloud based Software (Easylib 6.4 a.Cloud) costing nearly Rs.3 Lakhs above which is more expensive

Any how Software is essential to run our Library duties smoothly i.e., Automation, and Circulation in Central Library and Information Centre we are thinking to install KOHA Software which is recommended by Inspection Committees also.

For Installation of KOHA Software they are charging Rs. 3000/- Hence, I request you sir, to kindly grant permission for installation of KOHA Software.

Thanking You Sir.
