Prerequisite: Mathematical Knowledge, Logical and Analytical Thinking

Course Objectives: The objective of this course is to make the student

- To introduce the basic concepts of Computing environment, algorithms and flowcharts
- To acquire knowledge about the basic concept of writing a program
- To understand modular and structured programming constructs in C
- To learn the usage of structured data types, data handling and memory management using pointers

Course Outcomes:

After completion of the course, the student will be able to

1. Formulate algorithms and learn fundamental program methodologies of C programming.
2. Understand control statements and interpret derived data types with mathematical and engineering problems.
3. Develop modular programming techniques to solve searching, sorting and file system problems
4. Recognize pre-processor directives and user defined usage..

Unit I (11) Introduction to Computers: Introduction to components of a computer system (disks, memory, processor, where a program is stored and executed, operating system, compilers etc.). Algorithm, Flowchart / Pseudo code with examples
Introduction to C Language: History of C, Features, Structure of C program, Character set, Tokens, Variables, Data types, I/O statements, Type conversion Syntax and Logical Errors in compilation, object and executable code.

Unit – II (11)

Operators and Control Structures: Operators, Operator precedence, Arithmetic expressions, Conditional Branching and Loops, Writing and valuation of conditionals and consequent branching
Arrays: Arrays (1-D, 2-D), Strings and its library functions.

Unit – III (10)

Basic Algorithms: Searching, Basic Sorting Algorithms (Bubble and Selection).
Functions: Functions, storage classes, Parameter passing techniques Passing arrays to functions, Recursion Concept, Command line arguments.

Unit – IV (10)

Pointers: Idea of pointers, Defining pointers, array of pointers, pointer arithmetic, dynamic memory allocation,
Structure: Structures, Defining structures and Array of Structures, self – referential structures, Unions concept, Functions and structures, Enum, Bitfields.

Unit – V (8)

Pre-processor Directives: File Inclusion, Macros Substitutions, Conditional Compilation.

File Handling: Introduction to File Handling, Types of files, File operations, File input/output statements.

Text Books:

- T1. Computer Science A structured programming approach using C, Behrouz A. Forouzan and Richard F. Gilberg , Cengage Learning , 2007 ,Third Edition (Unit 1-5)
- T2. Schaum's Outline of Programming with C, Byron Gottfried, McGraw-Hill 2019, Fourth Edition (Unit 1-5)
- T3. Data Structures and Program Design in C, Robert Kruse, Bruce Leung, Tondo, Pearson, II Edition

Sub: Regarding the Total Station Training for III semester Civil Engg. Students

Respected sir,

For III semester civil engineering students we would like to offer a hands-on experience training program on Total station equipment in Surveying. Total Station is one of the leading equipment in the civil engineering domain which can help the students in the field. Based on our MoU with the HIEE Empowering Engineers Pvt Ltd., their team is ready to take on this training program for 4 days as a workshop in our campus. In this regard, for the benefit of students, I request you to permit us to conduct this training in our college campus from June 12th to 15th 2023, from 9.30am to 05:00pm.

Thanking You,

Yours Sincerely,

Bandita Naik

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

1: CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish co-operation.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities.
- 1.3 The parties shall co-operate with each other and shall as promptly as is responsibly practical, relevant agreement.

2: SCOPE OF THE MOU

- 2.1 Industrial Training & Visits: Industry and Institution interaction will provide an insight into the latest developments/requirements of the industries in the field of core Industries, the First Party to permit the Faculty and Students of the Second Party to visit its group companies and also involve in Industrial Training Programs for the Second Party. This will provide confidence & a smooth transition for students' work. Also, the Second party may register on the AICTE Internship Portal for the benefit of students.
- 2.2 Guest Lectures: First Party to extend the necessary support to deliver guest lecturers to the students of the Second Party on the technology trends and in-house requirements.
- 2.3 Certificate Courses: the First party will actively engage to help the delivery of certificate courses in the field of Civil Industries based on the industry-leading platforms to the students of the Second party.
- 2.4 Internship for students: the First party will actively engage to help the delivery of the training and internship of the students of the Second party on the technology trends and in-house requirements.
- 2.5 There is no financial commitment on the part of HIEE and METHODIST COLLEGE OF ENGINEERING & TECHNOLOGY (METH) take up any program mentioned in MOU. Financial for any programs, revised on case to case basis.
- 2.6 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required either individually or collectively.

3: VALIDITY

- 3.1 The term of this MOU is for a period of 3 years, effective from the date of MOU signed. This MOU can be extended upon written mutual agreement. It shall be reviewed annually to ensure that it is fulfilling its purpose and to make any necessary revisions.
- 3.2 Either organization may terminate this MOU upon thirty (30) days written notice without penalties or liabilities.

WHEREAS, VDEI is interested in partnering with MCET to offer a Building Information Modelling (BIM) course to pursuing and passed out students and faculties.

WHEREAS, MCET is interested in partnering with VDEI to enhance its BIM course offerings and provide students with more practical experience.

NOW THEREFORE, the parties agree to the following terms:

1. VDEI will provide MCET with course materials (Soft Copy), including syllabus, and assignments, for a BIM course that VDEI will teach.
2. MCET will include the BIM course as value added course for interested students and will allow VDEI to use its facilities to teach the course.
3. MCET will provide VDEI with access to its IT infrastructure to support the delivery of the BIM course.
4. VDEI will provide MCET with feedback on the performance of students enrolled in the BIM course and will work with MCET to continuously improve the course curriculum.
5. Both parties will work together to promote the BIM course to students and professionals.
6. This MOU shall remain in effect for a period of three (3) years from the date of its signing, unless terminated earlier by either party with written notice to the other party.
7. This MOU may be modified or amended only by written agreement signed by both parties.
8. This MOU is not intended to create a partnership between the parties and shall not be construed as such.

Sub: Regarding the BIM Training for VI semester Civil Engg. Students

Respected sir,

For VI semester civil engineering, our students wants an option of learning BIM (Building Information Modelling) software. BIM is a trending software in the civil engineering domain which is providing a huge platform of opportunities starting from freshers. One company VDEI (Virtual Design Engineering Institute) approached us to give one month in-campus training of BIM software along with REVIT Architecture, with a nominal fee compared to the other training providers. VDEI is a leading BIM consultant company, having their consultancy works in various countries like Middle East, USA etc. VDEI even promised the department, for their extended help in placement of at least 15 students after their BIM training. In this regard, for the benefit of students, I request you to permit us to conduct this training in our college campus from May 8 to June 4 2023 at Engineering Graphics & Computer Applications lab at C-Block.

Thanking You,

Yours Sincerely,

Report on Design & Manufacturing Workshop conducted / Organized

PCB workshop was organised from 16Th Feb to 17Th December 2022 as per schedule. All the students actively participate in the workshop of their interest.

Student's attendance was started. After completion of attendance, students were studying about melody generator circuit, PCB manufacturing steps, PCB design using Easy EDA software and finally Practiced Drilling and Soldering.

There was each team from two members did everything step by step throughout day. Except some students, most of the students attended the workshop.

Finally students were interested to participate in more workshops in future and they were interested to implement many numbers of small projects.

About

It is a hands-on workshop on Printed Circuit Board Design and Fabrication with real time applications.

About the workshop:

As we know “The Internet of Things (IoT) is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

This Workshop is aimed to explore the potential areas and the significance in the fields of Internet of Things(IOT).

Venue:

6th & 7th Jan, 2023.

C-210, C – Block

Department of EEE,

Methodist College of Engineering and Technology.

Resource Person:

Mr. Swamy is employed with **Pantech e Learning** as a subject expert. His working areas include IoT applications; He has trained over more than 1000+ students and faculties across various universities and colleges in AP & TS.

The main topics covered in the workshop are given below:

- Different types of Arduino board such as Arduino Uno, Arduino Uno R3 SMD,• Ardino Pro 3.348 MHz , Arduino mini , Aurdino Ethernet and there characteristics (Power supply, clock speed, Digital I/O, Analog Input, PWM modulation and different kinds of interfacing.
- Wi-Fi module Programming with Arduino.
- Interfacing of sensors and uploading data on cloud.
- For Interfacing different types of sensors with Arduino and Arduino with database, different programming steps have been discussed (function , statement ,control statement levels variables, math, pin mode, serial mode, digital mode variable, delay and for loop)
- Interfacing and controlling various devices like LED, motors, sensors etc with Arduino.
- ✓ **Total 70 students participated in the workshop.**

Outcomes of the workshop:

Students after attending the workshop were able to understand

- What “the Internet of Things” means and how it relates to Cloud computing concepts
- How open platforms allow you to store your sensor data in the Cloud
- The basic usage of the Arduino environment for creating your own embedded projects at low cost
- How to connect your Arduino with your Android phone.
- How to send data to the Internet and talk to the Cloud.
- Students were benefitted with workshop and learned modern tools and techniques which will be useful for creating and modelling engineering projects and also the program outcome PO5 is attained by the students with this workshop

At valedictory ceremony, the participants were awarded the certificates and provided with the kit to continue their journey with IoT. Also competitive hands-on problem has been given to the students and students actively participated.

Report on Design & Manufacturing Workshop conducted / Organized

PCB designing through zuken cadstar workshop was organised from 17th to 21st December 2022 as per schedule. All the students actively participate in the workshop of their interest.

Student's attendance was started. After completion of attendance, students were studying about Zuken CADSTAR software, Analysis working on design tool, Part and library creation in library editor, circuit schematic entry, schematic drawing and netlist generation, Generating BOM (bill of material, Footprint creation of PCB components, Embedded place and Route, Routing and creating powerplane, PR-Editor based Routing, Final DRC (design rule check) and then Gerber file generation.

There were two members from each team did everything step by step throughout day. Except some students, most of the students attended the workshop.

Finally students were interested to participate in more workshops in future and they were interested to implement many numbers of small projects.

Good morning everyone, I heartily welcome Director, ~~Dean~~
Principal, HOD's, my colleague faculty and dear students

Good morning everyone, and welcome to our event. It is my pleasure to introduce our chief guest, [Krishna Sistla], who has graciously accepted our invitation to join us today.

Krishna Sistla is a highly accomplished Co-Founder/CEO at TOOOPLE Technologies Pte Ltd (Former Oracle Education Leader)

About

Results oriented educational specialist with exceptional business, organisational and interpersonal skills – worked in the IT industry in education business and CSR for over 30 years with top IT vendors. Possess skills to utilize resources for internal, partner training and to create technology driven delivery methodologies in diverse countries. Currently, Director and Co-Founder at TOOOPLE Technologies Pte Ltd, a skills development aggregation company with focus on "Applied Project Development" international certifications endorsed by NOCN(UK) for young professionals, faculty members and students in higher education.

Professional Engagements:

- Participated in UNESCO for Expert Meeting to Develop Asia-Pacific Regional CLC Standards and Adult Competency Framework in Nov'15 at their regional HQ in Thailand.
- Presented at recently concluded Asia-Pacific Conference On Education and Training organized by UNESCO & MOE-Malaysia.
- International Advisory Board member – IEEE Education conference 2012 in Amritapuri Actively involved in promoting 21st century skills in formal education as a speaker.
- Speaker at various education forums across the region including many education ministries to promote technology based training including. Recently spoke at QS-APPLE Regional Conference in Taiwan.
- Was an Executive Council Member of International Institute of Information Technology (Deemed University) Hyderabad, India.
- Attended various training programs including two Design Thinking Workshops at Stanford University Campus organized by Lime Design.
- Published/presented a paper at MIT-LINC global education conference in Cambridge to promote 21st century skills using technology.
- International Advisory Board member for 2012 IEEE International Conference on Technology Enhanced Education (ICTEE), India.

1. Today, we will be discussing **IMPORTANCE OF PROJECTS IN EDUCATION SYSTEM AND METHODS FOR PROJECT EXECUTION** and I am confident that Krishna Sistla will provide valuable insights and perspectives on this important subject.
2. As we move forward with our event today, I encourage everyone to actively engage with Krishna Sistla to ask questions, and to listen attentively to their words of wisdom. The time we spend with Krishna Sistla today will undoubtedly be a valuable learning experience for all of us. Please join me in welcoming Krishna Sistla with a round of applause.
3. Let's give a round of applause to welcome our chief guest.

4. May I now request Ms. Krishna sir to deliver the lecture

REPORT ON INDUSTRY INTERACTION SESSION

Session Topic : MASTERCLASS on INDUSTRIAL IoT SYTEMS DESIGN

Session Date : 3rd JULY 2023, 02:30 PM IST (GMT+5.30 Hrs.).

Venue : Seminar Hall, MCET, Abids, Hyderabad.

Program Targeted : 2nd and 3rd Year Students of Dept. of ECE and EEE, CSE, AI & DS

Resource Person : Mr. Amit Kumar Choudhary, CTO, PRAGYATMIKA, The Power of Intelligence

Chief of Guest : Dr. Ravi M Yadahalli, Co-Ordinator, IQAC, MCET, Hyderabad

Chief Co-Ordinator : Prof. T. Sravan Kumar

Student Co-ordinator : R. Sharvari, Dept. of ECE, 6th Sem.

Session Duration : 1.5 Hours

Session Attendance : 100 %

Key Points Covered : Importance of IoT, Integration of IoT with Electronics Systems Design, key Challenges of Design, The Design Paradigm, The Design Architecture, Practical Applications, Use Cases, Future Opportunities.

Feedback :

It was wonderful opportunity for students to get the latest industry standard updates on skills of IoT Technologies and Use Cases.

VLSI SoC Design using Verilog HDL Course :

This VLSI SoC Design Course using Verilog HDL is specially designed for Pre-final and final year Electronics / Electrical Engineering students to learn and strengthen the knowledge on chip design process. This course explains VLSI Technology, SoC Architecture and Design process, coding for synthesis and simulation. It explains the concept of hardware description language and basic concepts like data types and operators. Then it explains advanced concepts like assignments, procedural blocks, synthesis coding style and testbench coding.

Why this course?

1. Foundation to VLSI Career
2. Certificate on Completion
3. Course delivered by Industry Experts
4. Hands-on Experience through Labs
5. Live Q&A Sessions

About the Instructor :

The entire course is designed and delivered by CEO Mr. P R Sivakumar, a seasoned engineering professional with 20+ years of experience in Industry and Academia. He has worked as a Verification Consultant for the top EDA companies Synopsys, Cadence and Mentor and helped

Dear Dr Ravi M Yadahalli,

Hope this email finds you well!!

Once again we would like to thank you for providing the opportunity to your students to take up the Free VLSI SoC Design using Verilog HDL course for a duration of 30 days i.e. from 28th Sep 2022 to 28th Oct 2022.

We are sure that this course was knowledgeable, and we are glad to see that many students have actively participated and were able to complete the course.

However we would like to hear from the students about their course experience and also we would like to know if any of the students are interested in making a career in VLSI. We would be happy to guide them to have a successful career.

Looking forward to hearing from you. Attached is the Course Completion Report for your reference.

For any queries call me on +91- 9886914555.
