- Measure Progress :
Progress is measured at regular intervals. No program is conducted without measuring progress.

- Identify Gaps :
Needs are identified based on desired outcome and current status. Focused training strategy for students who are low of employability skills to improve overall placement results.

- Practice :
Practice makes a man perfect! We believe in this and that's why practice is an integral part of our programs

- Length of Training :
Length of the program is designed based on the outcome and gaps,

- **Daily Training Hours** :
Programs are conducted for 2-3 hours per day. We all know, anything more than that will not be effective.

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Respected Sir,

Greetings from ACE Engineering Academy promoted ACE KNOWLEDGE SERIES initiative!

We seek your kind permission to address the 2nd, 3rd and FINAL Year students of your institution on “How to Crack ESE/GATE/PSUs in 1st Attempt” for ECE/EEE/CS & IT/MECH/CIVIL

A QUICK SNAPSHOT OF ESE & GATE:

Why ESE?

Engineering Services Examination (ESE) is conducted every year by the Union Public Service Commission (UPSC) for recruitment to the Indian Engineering Services happens to be the most sought-after career for the engineering graduates in India.

- **Tough & Competitive:** ESE is considered as one of the toughest examination in India due to the difficulty related to the examination and the selection procedure. Also there are less number of posts and more number of aspirants. Based on 2018 statistics, a total of 2, 50,000+ candidates applied for a total of 511 Vacancies in all branches and cadres, having competition ratio of 1:570.
- **Social Status:** The candidates, who get selected for ESE, enjoy a very high respect and stature in the society. Candidates who are selected for ESE are appointed as Assistant Executive Engineer in various departments under central government for Group A and Group B posts.
- **Wide Options:** The various services in which recruitment is made through ESE include Indian Railways, Central Engineering, Central Water Engineering, Border Roads Engineering, Indian Defence Service of Engineers, Indian Ordnance Factories, Central Power Engineering, Indian Naval Armament Service, Central Electrical & Mechanical Engineering, Electronics & Telecommunication Engineering, Indian Telecommunication Service, Wireless Planning & Co-ordination Wing etc.

Why GATE?

As you are well aware that GATE examination is a national level assessment setting the standard for engineering students who will be graded based on their technical gradient.

- **IIT/IISc:** GATE score open doors for students to pursue an M.Tech study in the renowned institute such as the IITs or IISc.
- **PSU Jobs:** Additionally, working professionals acquire an edge as their options for reputed PSUs increase, on rendering the GATE Score to be the qualifying mark of scrutiny for entrants.

- **Study Abroad:** GATE Rank helps students stay back in academia by opting for universities abroad in Singapore namely the NUS, NTU as well in Germany.
- **Other options:** NITIE, IIM - FPM etc.

About ACE Engineering Academy:

With innumerable benefits of ESE & GATE, structured preparation becomes a pre-requisite and is thus provided by the reputed institute – ACE Engineering ACADEMY. The academy established by **Prof YV Gopala Krishna Murthy (M.Tech – NIT Warangal, MIE)** strives to train ESE & GATE aspirants who are keen on building their career into a professional one. Having himself been selected for UPSC Engineering Services and being one of the toppers in Engineering Services of AP Public Service Commission GK Sir as he is popularly known in the student and academic fraternity paves the way for rookies by conducting seminars on the significance of ESE & GATE examination with technical emphasis in the current generation.

CREDENTIALS:

- PIONEER to LEADER: 25+ Years of Dedicated Service
- GATE: 57 All India 1 Ranks
- ESE: 15 All India 1 Ranks & 34 Ranks in TOP 10 in ESE – 2018

Dear Sir,

We are pleased to introduce ourselves that Methodist College of Engineering and Technology is established in the year 2008, situated in the heart of the Hyderabad city to promote engineering education to both urban and rural students. The college is approved by AICTE, New Delhi and affiliated to Osmania University and also accredited with NAAC A+, and NBA. The department of Mechanical Engineering is offering both undergraduate course B.E. with an intake of 120 and post graduate course M.E. (CAD / CAM) with an intake of 18. The department believes in “Learning by doing” and gives utmost importance to practical exposure to the students in understanding the concepts and principles of engineering. However we believe that this can be achieved only with mutual collaboration and cooperation between the institute and industry.

In this regard, I take privilege in inviting you to be the Resource person and deliver an expert lecture on “Career Opportunities for Mechanical Engineers in the field of Fire Fighting Systems” on 19th May 2021 at 7.30 P.M.

Your acceptance will be a great honor to all the participants as well as for the organizers.

Looking forward for your positive response.

Dear Sir,

Greetings from T-Tribe!!!

We now officially welcome your college to be a part of the T-Tribe LaunchPad program, we are glad that Methodist Engineering College is one of our college partners here onwards.

As you are aware, **T-Tribe** - Academic Membership Program - is the latest and proud initiative of T-Hub launched with a vision to empower students across the country with entrepreneurship.

How do we plan to achieve this?

We have various expertly curated programs to help aspiring entrepreneurs in every stage of their entrepreneurial journey. One of them is our one-year **Launchpad Program!** By associating with the leading colleges in the country, T-Tribe aims to deliver entrepreneurial content to the students and help them consider entrepreneurship as a career. The Launchpad Program is a perfect amalgamation of theoretical and practical learning that not only enlightens students on the scope of entrepreneurship but also gives them a direction to achieve success in the field.

Why should you choose the Launchpad Program for your students?

The future is looking at more job creators than job seekers. We want the next generation of the country to be able to become successful entrepreneurs by implementing their revolutionary ideas. And their success journey starts with the Launchpad Program.

The following are the key outcomes of the program:

- Certification from T-hub
- Provide a structured approach to entrepreneurship
- Provide an opportunity for student entrepreneurs to assess their ideas and consider entrepreneurship as a career option
- Help colleges to have access to founders, start-ups, corporates, and mentors for students that would help them to move towards business viability
- Hone entrepreneurial skill sets

T-Tribe has immense respect for those who encourage the next generation to be independent thinkers, leaders, and competent entrepreneurs. We would like to do everything for you to keep up the good work. T-Tribe is currently associated with **21 colleges**.

We request you to kindly connect a faculty SPOC from your end who will be incharge of this LaunchPad program and further communication can be rolled through them.

For any other queries please write to us.

Dear Sir,

Greetings from T-Tribe!

It was great talking to you today. As discussed, here I am sharing the T-Tribe program details.

T-Hub, which leads India's pioneering innovation ecosystem, recently announced the launch of its academic membership program 'T-Tribe'.

This initiative will empower and enable early-stage innovation and student entrepreneurship with its three offerings: **Launchpad**, **MasterClass**, and **KickStart**. The **Launchpad** is a one-year entrepreneurship platform/program that is designed for academic institutions that have incubation/e-cells.

The **MasterClass** is an entrepreneurship learning and pre-incubation program that is designed for student entrepreneurs who have innovative and feasible start-up ideas/solutions and the **KickStart** is built to provide assistance to the colleges to run their own incubation centers. It is a customizable program that could be tailored based on the requirements of the college. The core objective of the program is to assist colleges to run a fully functioning incubation center that helps students develop and execute their ideas.

As part of the T-Tribe initiative, T-Hub aims to partner with leading institutions from seven states. In addition, T-Tribe satellite centers across these states will be set up in partnership with local universities. Through these offerings, T-Hub will address the specific challenges faced by the student, idea-stage entrepreneurs, and colleges who have incubation/e-cells and guide them to get on the fast-track to growth. T-Hub will bring its vast experience and expertise in running various programs and will provide these colleges with the right mentorship and exposure to the domestic and global incubation and innovation ecosystem standards.

These platforms will enable colleges to get an understanding of process-driven incubation and the elements required for setting up a successful incubator by means of workshops, discussions, seminars, etc. that will be organized by **T-Hub** at regular intervals.

The key deliverables of LaunchPad are:

- Provide a structured approach to entrepreneurship
- Showcase academic institution on how to run a successful incubation program
- Provide an opportunity for student entrepreneurs to assess their ideas and consider entrepreneurship as a career option
- Help colleges to have access to founders, start-ups, corporates, and mentors for students that would help them to move towards business viability

The key deliverables of Masterclass are:

- Provide mentorship from industry leaders and subject matter experts from T-Hub and the ecosystem
- Provide all requisite support, infrastructure, and services to the student & idea stage entrepreneurs
- Have access to a network of mentors, investors, and other ecosystem stakeholders
- Establish connections with T-Hub start-ups who might want to implement the solutions developed by student entrepreneurs/ idea stage start-ups
- Help raise funding from T-Hub's investor network

The key deliverables of the KickStart program are:

- Provide guidance to the colleges/faculty to run a global standard incubation center
- Process streamlining done by the executives of T-hub
- Provides the required mentorship for both students and the faculty
- Sessions and discussions that are driven by the industry experts
- Certify the participants in "Incubation Centre Management"

Also, as discussed, please let me know your opinion and suggestions on the various levels we can get associated with. We can look at becoming partners in supporting idea-stage institutions, start-ups, and student entrepreneurs and build a national program.

Feel free to contact us for any questions/queries with regards to the program.

Best regards,

B.Srinivas,
