

PROJECT WORK – I

PW 703 CE

Instruction: 3 periods per week

CIE: 50 marks

Credits: 3

Course Objectives:

1. To develop skills in doing literature survey, technical presentation and report preparation.
2. To encourage students to work with innovative and entrepreneurial ideas
3. To enable project identification and execution of preliminary works on final semester project

Course Outcomes:

After successful completion of the course the students will be able to

1. Analyze a current topic of professional interest and present it before an audience
2. Identify an engineering problem, analyze it and propose a work plan to solve it
3. Develop awareness of design methodologies & its implementation
4. Acquire skills in technical report writing

Course Plan

Seminar:

Each student shall identify a topic of current relevance in his/her branch of engineering, get approval of faculty concerned, collect sufficient literature on the topic, study it thoroughly, prepare own report and present in the class.

Project preliminary:

Identify suitable project relevant to the branch of study. Form project team (not exceeding four students). The students can do the project individually also. Identify a project supervisor. Present the project proposal before the internal departmental committee comprising of Head of the Department, faculty coordinator, faculty supervisor(s) and at least two faculty members (excluding the external expert) and get it approved by the committee.

The preliminary work to be completed:

- (1) Literature survey
- (2) Formulation of objectives
- (3) Formulation of hypothesis/design/methodology
- (4) Formulation of work plan (5) Seeking funds
- (6) Preparation of preliminary report

Note: The same project initiated in Project Work-I should be continued and completed in the VIII semester as Project Work –II by the same project team.

Evaluation

(Evaluation of Project-1 should be based on the progress reported by the student and certified by the supervisor)

For the academic years 2020-2024

with effect from AY 2023-2024

Maximum Marks: 50

| Seminar: 25 marks | Activity | Weightage |
|--------------------------------------|--|------------------|
| Distribution of marks | Presentation | 10 |
| | Ability to answer questions | 8 |
| | Report | 7 |
| Project preliminary: 25 marks | Progress evaluation by the supervisor | 10 |
| Distribution of marks | Progress evaluation by the internal departmental committee excluding external expert | 15 |

Note: Two progress evaluations, mid semester and end semester, are mandatory
All evaluations are mandatory for course completion and for awarding the final grade.

R. Naik
Head of the Department
Department of Civil Engineering
METHWEN COLLEGE OF ENG. & TECH.
Krig Koli Road, Akola, Maharashtra

PROJECT WORK – II

PW 704 CE

Project Work: 10 periods per week

CIE: 50 marks

Credits: 5

Duration of SEE: Viva-voce 30 mins

SEE: 100 marks

Objectives

1. To apply engineering knowledge in practical problem solving
2. To foster innovation in design of products, processes or systems
3. To develop creative thinking in finding viable solutions to engineering problems

Outcomes:

1. Think innovatively on the development of components, products, processes or technologies in the engineering field
2. Apply knowledge gained in solving real life engineering problems

Course Plan

1. In depth study of the topic assigned in the light of the preliminary report prepared in the VII semester
2. Review and finalization of the approach to the problem relating to the assigned topic
3. Preparing a detailed action plan for conducting the investigation, including team work
4. Detailed Analysis/Modelling/Simulation/Design/Problem Solving/Experiment as needed
5. Final development of product/ process, testing, results, conclusions and future directions
Preparing a paper for Conference presentation/Publication in Journals, if possible
6. Preparing a report in the standard format for being evaluated by the Internal Departmental Committee
7. Final project presentation and viva voce by the faculty coordinator including external expert

Internal Evaluation

Maximum Marks: 50

Distribution of marks for the Project final is as follows:

- (i) Two progress assessments: **20 marks** by the faculty supervisor(s)
- (ii) Assessments and final project report: **30 marks** by the internal faculty coordinator / review committee

External Evaluation by University appointed external examiner

Maximum Marks: 100

Distribution of marks for the Project final is as follows:

- (i) Project presentation and viva voce: 50 marks
- (ii) Project Report Assessment: 50 marks

Note: All the three evaluations are mandatory for course completion and for awarding the final grade

METHODIST COLLEGE OF ENGG. & TECH,
ABIDS, HYDERABAD.

RUBRICS FOR EVALUATION – PROJECT WORK: PHASE 2

| Sl No | RUBRICS Parameter for Evaluation | Excellent (5) | Good (4) | Average (3) | Poor (2) | PO |
|-------|---|--|--|--|--|---|
| 1 | Problem Definition and Objectives | Detailed and extensive explanation of the purpose and need of the project. Scope and motivation of the problem. | Good explanation of the purpose and need of the project. Collects a great deal of information and study of the existing systems. Good justification to the objectives. | Average Explanation about the purpose and need of the project. Moderate study of the existing systems, collects some basic information. Incomplete justification to the objectives proposed. | Moderate explanation of the purpose and need of the project. Explanation of the specifications and the limitations of the existing systems not very satisfactory. limited information. | PO1, PO2 |
| 2 | Literature Survey | Demonstrates comprehensive review of literature related to project topic student identifies all the limitations of the existing literature | Demonstrates comprehensive review of literature related to project topic; student identifies few of the limitations of existing literature | Demonstrates comprehensive review of literature related to project topic student is unable to identify the limitations of the existing literature | Unable to demonstrate comprehensive review of literature related to project topic; and is not able to identify the limitations of the existing literature. | PO1, PO2, PO3, PO4 |
| 3 | Methodology & implementation • Analytical • Mathematical • Simulation • Case studies | Steps to be followed to solve the defined problem are clearly specified. | Methodology to be followed is specified but no detail explanation | Steps are mentioned but unclear, without justification to objectives | Steps to be followed to solve the defined problem are not specified properly. | PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO8, PO9, PO10, PO11, PO12 |
| 4 | Presentation, Communication & Documentation | Effective presentation Effective collaboration, communication and involvement. | Good presentation Good collaboration, communication and involvement. | Average presentation Average collaboration, communication and involvement. | Poor presentation Poor collaboration, communication and involvement. | PO8, PO9, PO10 |

|-------|---|--|--|--|---|---|
| 1 | Problem Definition and Objectives | Detailed and extensive explanation of the purpose and need of the project. Scope and motivation of the problem. | Good explanation of the purpose and need of the project. Collects a great deal of information and study of the existing systems. Good justification to the objectives. | Average Explanation about the purpose and need of the project. Moderate study of the existing systems, collects some basic information. Incomplete justification to the objectives proposed. | Moderate explanation of the purpose and need of the project. Explanations of the specifications and the limitations of the existing systems not very satisfactory, limited information. | PO1, PO2 |
| 2 | Literature Survey | Demonstrates comprehensive review of literature related to project topic student identifies all the limitations of the existing literature | Demonstrates comprehensive review of literature related to project topic; student identifies few of the limitations of existing literature | Demonstrates comprehensive review of literature related to project topic student is unable to identify the limitations of the existing literature | Unable to demonstrate comprehensive review of literature related to project topic; and is not able to identify the limitations of the existing literature. | PO1, PO2, PO3, PO4 |
| 3 | Methodology & Implementation • Analytical • Mathematical • Simulation • Case studies | Steps to be followed to solve the defined problem are clearly specified. | Methodology to be followed is specified but no detail explanation | Steps are mentioned but unclear, without justification to objectives | Steps to be followed to solve the defined problem are not specified properly. | PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO8, PO9, PO10, PO11, PO12 |
| 4 | Presentation, Communication & Documentation | Effective presentation, Effective collaboration, communication and involvement. | Good presentation, Good collaboration, communication and involvement. | Average presentation, Average collaboration, communication and involvement. | Poor presentation, Poor collaboration, communication and involvement. | PO8, PO9, PO10 |

15

PW702ME

Instruction: 6 periods per week

CIE: 50 marks

Credits: 3

PROJECT-I

Duration of SEE -

SEE -

Objectives:

| |
|--|
| 1. To enhance practical and professional skills. |
| 2. To familiarize tools and techniques of systematic literature survey and documentation |
| 3. To expose the students to industry practices and team work. |
| 4. To encourage students to work with innovative and entrepreneurial ideas |

Outcomes:

| |
|--|
| 1. Demonstrate the ability to synthesize and apply the knowledge and skills acquired in the academic program to the real-world problems. |
| 2. Evaluate different solutions based on economic and technical feasibility |
| 3. Effectively plan a project and confidently perform all aspects of project management |
| 4. Demonstrate effective written and oral communication skills |

The department can initiate the project allotment procedure at the end of VI semester and finalize it in the first two weeks of VII semester

The department will appoint a project coordinator who will coordinate the following

- Collection of project topics/ descriptions from faculty members (Problems can also be invited from the industries)
- Grouping of students (max 3 in a group)
- Allotment of project guides

The aim of project work is to develop solutions to realistic problems applying the knowledge and skills obtained in different courses, new technologies and current industry practices. This requires students to understand current problems in their domain and methodologies to solve these problems. To get awareness on current problems and solution techniques, the first 4 weeks of VII semester will be spent on special lectures by faculty members, research scholars, post graduate students of the department and invited lectures by engineers from industries and R&D institutions. After completion of these seminars each group has to formalize the project proposal based on their own ideas or as suggested by the project guide.

Seminar schedule will be prepared by the coordinator for all the students from the 5th week to the last week of the semester which should be strictly adhered to.

Each group will be required to:

1. Submit a one-page synopsis before the seminar for display on notice board.
2. Give a 30 minutes' presentation followed by 10 minutes' discussion.
3. Submit a technical write-up on the talk.

At least two teachers will be associated with the Project Seminar to evaluate students for the award of sessional marks, which will be on the basis of performance in all the 3 items stated above.

The seminar presentation should include the following components of the project:

- Problem definition and specification
- Literature survey
- Broad knowledge of available techniques to solve a particular problem.
- Planning of the work, preparation of bar (activity) charts
- Presentation- oral and written.

H.O.D.

Mechanical Engineering Department
Methodist College of Engg & Tech
Kino Koti, Hyderabad-500 001.

PW703ME

Instruction: 18 periods per week

CIE: 50 marks

Credits : 8

Duration of SEE -

SEE: 150 marks

Objectives:

- | |
|---|
| 1. To enhance practical and professional skills. |
| 2. To familiarize tools and techniques of systematic literature survey and documentation. |
| 3. To expose the students to industry practices and team work. |
| 4. To encourage students to work with innovative and entrepreneurial ideas. |

Outcomes:

- | |
|--|
| 1. Demonstrate the ability to synthesize and apply the knowledge and skills acquired in the academic program to the real-world problems. |
| 2. Evaluate different solutions based on economic and technical feasibility. |
| 3. Effectively plan a project and confidently perform all aspects of project management. |
| 4. Demonstrate effective written and oral communication skills. |

The aim of Project work –II is to implement and evaluate the proposal made as part of Project Work - I. Students can also be encouraged to do full time internship as part of project work-II based on the common guidelines for all the departments. The students placed in internships need to write the new proposal in consultation with industry coordinator and project guide within two weeks from the commencement of instruction.

The department will appoint a project coordinator who will coordinate the following:

1. Re-grouping of students - deletion of internship candidates from groups made as part of project Work-I
2. Re-Allotment of internship students to project guides.
3. Project monitoring at regular intervals.

All re-grouping/re-allotment has to be completed by the 1st week of VIII semester so that students get sufficient time for completion of the project.

All projects (internship and departmental) will be monitored at least twice in a semester through student presentation for the award of sessional marks. Sessional marks are awarded by a monitoring committee comprising of faculty members as well as by the supervisor. The first review of projects for 25 marks can be conducted after completion of five weeks. The second review for another 25 marks can be conducted after 12 weeks of instruction.

Common norms will be established for the final documentation of the project report by the respective departments. The students are required to submit draft copies of their project report within one week after completion of instruction.

Note: Three periods of contact load will be assigned to each project guide.

Innovative Design project

| Semester II | L | T | P | Credits |
|--------------------------|---|---|---|---------|
| Subject code – 6PC5255ME | - | - | 8 | 4 |

Course Objectives:

Innovation Design Project is to realize the design in various fields of interest related to the mechanical engineering profession that solves an existing problem, improves an existing technology, process or product and bring in innovative ideas that can be implemented through design. Students have to understand the importance of design and how to do it as this is the main professional goal.

This course is planned to understand the various segments of activities connected with simple design and to encourage students to think differently and formulate design solutions to meet society needs. Further, students are encouraged to take up mini-projects to realize the designs. They also get exposed to availability and usage of various engineering tools to be used to meet the final objective of design. These include CAD, Analysis Tools, Simulation Tools, Optimization Tools and the like.

The main objective of this course is to use the knowledge acquired in Mechanical Engineering and take up a mini project, which allows the students to come up with design / analyse and fabrication of models/ prototypes expressing their ideas in a novel way. The course enables the students to get experience in solving various design problems related to mechanical Engineering and to impart and improve the design-capability of the student.

Course outcomes:

1. The student shall have knowledge on using and adapting existing methods and learn new methods, for problem solving in practical development projects.
2. The student shall also know how systematic technical problem solving and research shall be reported.
3. The student must be able to prepare a project plan with milestones, report partial results and write a project report in accordance with established standards.
4. S/he shall master writing of technical reports and communication, technically as well as on a more general basis.
5. The student shall on general basis be able to apply captured knowledge, competence and skills in a project setting where s/he works with others with different competence.
6. Furthermore, s/he should know how to work in a practical development project, within given circumstances and limitations, and deliver results.

METHODIST

COLLEGE OF ENGINEERING & TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Osmania University

Accredited by NAAC with A+ and NBA for UG Courses

College Code: 1607

Guidelines:

As part of the curriculum in the II- semester of the programme each student shall do a mini project, generally comprising about three to four weeks of prior reading, twelve weeks of active research, and finally a presentation of their work for assessment.

Each student will be allotted to a faculty supervisor for mentoring.

Mini projects should present students with an accessible challenge on which to demonstrate competence in research techniques, plus the opportunity to contribute something more original.

Mini projects shall have inter-disciplinary/ industry relevance.

The students can select a mathematical modeling based/Experimental investigations or Numerical modeling

All the investigations should be clearly stated and documented with the reasons/explanations.

The mini-project shall contain a clear statement of the research objectives, background of work, literature review, techniques used, prospective deliverables, and detailed discussion on results, conclusions and reference.

Guidelines for awarding marks in CIE (Continuous Internal Evaluation): Max. Marks: 50

| Evaluation by | Max.Marks Evaluation | Criteria / Parameter |
|------------------------|----------------------|------------------------|
| Supervisor | 20 | Progress and Review |
| | 05 | Report |
| Departmental Committee | 05 | Relevance of the Topic |
| | 05 | PPT Preparation |
| | 05 | Presentation |
| | 05 | Question and Answers |
| | 05 | Report Preparation |

IBM SkillsBuild

CSRBOX

Certificate of Internship

Presented to

Ibrahim Syed

We are proud to present this certificate for completion of the
IBM SkillsBuild and CSRBOX Academic Internship on Data
Analytics from 19th June 2023 to 28th July 2023.

We wish them a good luck for their future endeavors.

THE LEARNING APP

Date: 08/04/2024

Intern Name: Syed Asfaan Hussain,

Department : Operations

Place: Hyderabad

SUB: CERTIFICATE OF COMPLETION OF INTERNSHIP

This is to certify that Syed Asfaan Hussain student at Methodist College of Engineering and Technology has successfully completed his internship as Operational Analyst - Intern at Narayana's Learning App, Greater Than Educational Technologies Private Limited Hyderabad from 04.Dec 2023 to 28 Feb 2024.

During his internship, he has worked on different processes like -:

1. Streamlined Recruitment: Analyzed data to improve hiring for Operations roles
2. Policy & Documentation: Helped develop internship policy for smooth onboarding.
3. HR Support: Assisted with health insurance & exit processes.
4. Effective Communication: Drafted various letters and collaborate across departments.
5. Data-driven Approach: Supported recruitment through data analysis.
6. Initiative & Results: Prepared job descriptions for Operations interns.
7. Accuracy: Maintained data for background verification.
8. Adaptability: Contributed to diverse HR tasks and video analysis.

His association with us was very fruitful and we wish him all the best in his future endeavours

Regards

Jyotsna Fernandes

Sr. HR Manager

Narayana's Learning
