## The Library is automated using “Koha” Integrated Library Management System (ILMS)

Koha’s feature set continues to evolve and expand to meet the needs of its user base.

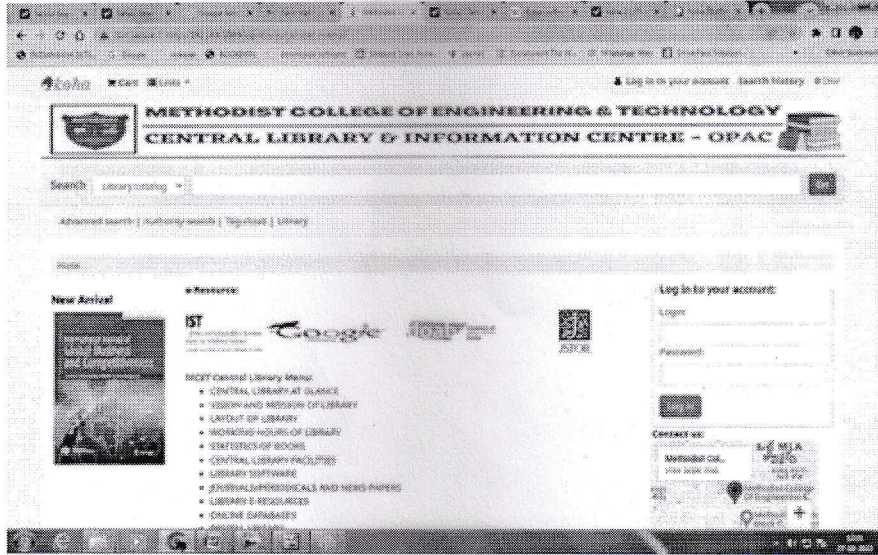

**Full-featured ILS:** For libraries of all sizes, Koha is a true enterprise-class ILS with comprehensive functionality including basic and advanced options. Koha includes modules for acquisitions, circulation, cataloging, serials management, authorities, flexible reporting, label printing, multi-format notices, offline circulation for when Internet access is not available, and much more. Koha will work for consortia of all sizes, multi-branch, and single-branch libraries.

- **Multilingual and translatable**
- **Full text searching:** Powerful searching, and an enhanced catalogue display that can use content from Amazon, Google, LibraryThing, Open Library, and Syndetics, among others.
- **Library Standards Compliant:** Koha is built using library standards and protocols such as MARC 21, UNIMARC, z39.50, SRU/SW, SIP2, SIP/NCIP, ensuring interoperability between Koha and other systems and technologies, while supporting existing workflows and tools.
- **Web-based Interfaces:** Koha’s OPAC, circ, management and self-checkout interfaces are all based on standards-compliant World Wide Web technologies–XHTML, CSS and Javascript–making Koha a truly platform-independent solution.

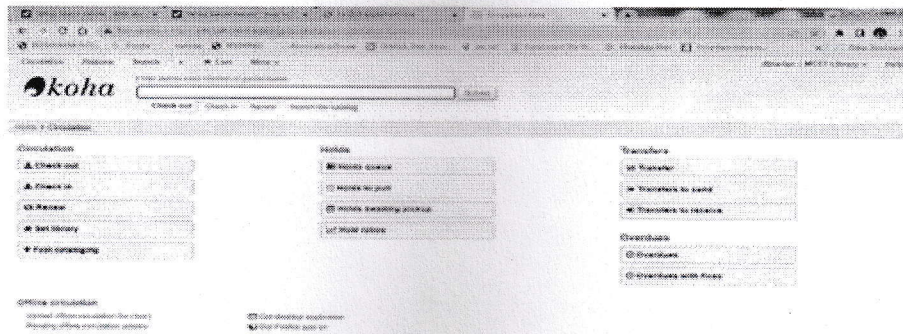

MCET Central Library & Information Centre uses Library software **Koha 21.05 with Ubuntu** for Library automation purpose.

Sub: Grant permission for Installing Library Software in Systems which are in Circulation Counter in Central Library and information Centre regd.

Respected Sir,

I want to bring to your notice that since 2010 we are using Easy-Lib Software, but since last two years it has been corrupted, and when we contact the technician who is dealing from Bangalore informed that to solve the problem or for re-installation we have to pay the annual-maintenance is 24,780/- and also forcing us to convert to Cloud based Software (Easylib 6.4 a.Cloud) costing nearly Rs.3 Lakhs above which is more expensive

Any how Software is essential to run our Library duties smoothly i.e., Automation, and Circulation in Central Library and Information Centre we are thinking to install KOHA Software which is recommended by Inspection Committees also.

For Installation of KOHA Software they are charging Rs. 3000/- Hence, I request you sir, to kindly grant permission for installation of KOHA Software.

Thanking You Sir.
