BAN ON PLASTIC

Efforts to reduce the use of plastics:

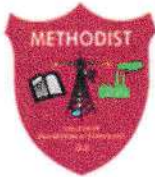

1. Raising awareness about the prohibition of plastic usage is a key initiative among students and other stakeholders.
2. Ceasing the use of single-use plastics within the campus is imperative and should be actively embraced by students and other members of the institution.
3. Advocating for the adoption of eco-friendly alternatives such as cloth bags and reusable/metal water bottles is strongly encouraged.
4. Implementation of separate dry and wet waste bins across the college campus is essential for effective waste segregation.
5. Motivating students to extend similar eco-conscious campaigns to the community level is a priority.
6. Affixing signed boards along the corridors of each block serves as a visual reinforcement of the institution's commitment to reducing plastic use.

Landscaping with trees and plants

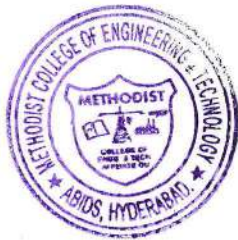

A work order is hereby authorized for the routine upkeep of lawns and plants within the college premises, encompassing the following stipulations:

1. Application of necessary treatments to ensure the well-being of plants and lawns.
2. Utilization of cutting-edge machinery for the precise trimming of grass.
3. Sustaining the condition of pots, plants, and lawns through regular maintenance.
4. Replacement of any deceased plants with healthy specimens as necessary.
5. Thorough cutting and removal of borders and weeds.

The through development and preservation of the green landscaping will be undertaken with the utmost care, overseen by gardeners and supervisors. The maintenance committee, established within the college, assumes responsibility for the ongoing enhancement and care of the greenery on the campus.
