Respected Sir,

I, Y. Mastanamma working as Associate Professor / HOD in the Department of EEE, am happy to intimate you that, I have successfully completed a 4 week (Jan-Feb 2023) *NPTEL online certification course on Electric Vehicles-Part I*, with a consolidated score of 64 % and *received Elite certificate*. The total number of candidates enrolled for this course are 13,894. The total number of candidates certified in this course are 1010.

This course really helped me to gain knowledge on EVs and in current semester I am dealing this professional elective course to our EEE, VI semester students. I will definitely share my updated knowledge to our students.

The course completion certificate and the receipt of the exam registration fee are attached herewith. Please consider as per our college rules.

Thanking You Sir,

Yours Faithfully,

Y. Mastanamma

This is to certify that the thesis entitled * **Improved Adhoc On-demand Distance Vector routing system based on Machine Learning model for enhanced network performance in Mobile Adhoc Networks** * being submitted by **M V D S KRISHNA MURTY** with **Reg No. 0903PH0660** in partial fulfillment for the award of Doctor of Philosophy in Faculty of **Computer Science and Engineering** to the Jawaharlal Nehru Technological University, Hyderabad in a record of bonafide work carried out by him at our Institute/College. We have accorded the permission to the scholar to do the research work in our Institution/college. The following equipment/facilities are required by the scholar to carry out the research work:

1.
 - (i) A High-Configuration Computers with 8GB RAM, Intel Core i5 Processor, 1TB Hard Disk with Linux/Windows 10 Operating System that helps in running resource-hungry applications related to research requiring large-scale simulations and experiments.
 - (ii) MATLAB 2015, a licensed version software is available for simulation framework. This software allows seamless modeling, simulation and experimentation related to Network-based infrastructures and application services which are required for the research.
2. R & D Center is equipped with the following facilities:
 - (i) Hardware: 25 systems with windows 10/Linux OS, 8GB RAM, 1TB Hard Disk.
 - (ii) Software: Python 3.10, Jdk 11 and MATLAB.

This is also to certify that the above equipment/facilities are available at our Institute/College.

Dear All,

Greetings!

This is for your information that from July 2023 onwards, the Ph.D. semester fees are to be paid through SRM Feekart only and the last date for the payment is 31st July 2023. The pending semester fees can be paid to the Directorate of Research and Virtual Education's Account directly.

Thank you

With regards,

Prof. B. Neppolian

Respected sir,

With respect to the subject cited above. I would like to bring your kind notice, that the Department of Mechanical Engineering, filed a two patents with application numbers: 202241050530 and 202241060180 In this regard the patent has been published and we have gone for examination for the two patents. We have received the FER (First Examination Report) for one patent with application number 202241050530. We have taken the help of Third party for filing the FER for the grant of the patent application, for which they are charging an amount of Rs 7300 (6500+800 fee for the objection raised by examiner as educational institution may not be an inventor) Hence we request you to sanction the money for the processing of grant of patent.

(Funded by the MoE, Govt. of India)

This certificate is awarded to

M MARY SOUJANYA

for successfully completing the course

Admixtures and Special Concretes

with a consolidated score of 50 %

Prof. Andrew Thangaraj
NPTEL Coordinator
IIT Madras

(Jul-Oct 2023)

Roll No: NPTEL23CE615537408122

Duration of NPTEL course : 12 Weeks

The candidate has studied the above course through MOOCs mode, has submitted online assignments and passed proctored exams. This certificate is therefore acceptable for promotions under CAS as per AICTE notifications dated 24th July 2018, similar to other refresher / orientation courses.
F.No. AICTE / RIFD / FDP through MOOCs / 2017-18

Date: 28-11-2023

To
The Principal,
MCET,
Abids.

Respected sir,

I am CH. Suresh working as Asst.Prof in ECE Dept, I had registered and completed a 12 weeks NPTEL course on "Cloud Computing". During July to October - 2023. And appeared for exam in October-2023 and secured score of 55%. This is a one week FDP recognized by AICTE, towards this I had paid an amount of 1200 rupees as registration fee amount. I am requesting you to sponsor and reimburse the fee as per college rules. I am enclosing the marks memo kindly do the needful.

Thanking you sir

Yours Sincerely

Respected sir,

Sub: Requesting permission to conduct seminar on 13.02.2024. regds

We, the Department of Civil Engineering, are writing to request permission to organize a seminar on the topic "Emerging Technologies and Opportunities for Civil Engineers" on 13th February 2024 from 10:30 am to 12:00 pm. We intend to invite a senior faculty member from the National Academy of Construction (NAC), Hyderabad, to address the seminar.

The purpose of this seminar is to provide our students with insights into the latest advancements and opportunities in the field of civil engineering. We kindly request your approval to proceed with the organization of this seminar and also request you to provide following things.

1. Memento
2. Honorarium of Rs.2000/-

Thank you for considering our request. We look forward to your favorable response.

Mr. A. Arun Kumar,
Associate Professor,
Department of Humanities & Sciences,
Methodist College of Engineering & Technology,
Hyderabad, Telangana.

Dear Sir,

Your registration to attend the "Training Program on Computer Interfaced Science Experiments Using ExpEYES" at the Inter-University Accelerator Centre in New Delhi from May 6 to May 11, 2024, has been accepted. IUAC will provide accommodation and travel support in addition to the local hospitality. Please confirm your participation on or before March 11, 2024, after booking your travel tickets and providing your travel details (PNR number) (otherwise this invitation is invalid).

A Registration fee of Rs. 3000/- has to be paid by all the participants during the registration process on May 6, 2024 as per the rules. Travel support will be given as per norms and will be limited to 2-Tier AC Train fares. In the case of air travel, the reimbursement will be restricted to the 2-Tier AC Train fare. According to Government of India rules, air tickets should be booked directly from the IRCTC/Balmer (BLCL)/Ashok Travels (ATT) only.

The program will begin at 9:00 a.m. on May 6, 2024, and your accommodation will be reserved beginning May 5, 2024. Please bring your institution's identity card with you. Accommodation is provided on a twin-sharing basis for participants only.

Participants must submit the original of the onward ticket (as well as the boarding pass for air travel) and a photocopy of the return ticket in order to claim TA. Please bring the printed tickets with you.

Yours Sincerely

(V V V Satyanarayana)

FACULTY DEVELOPMENT PROGRAMME (FDP) ON

"Recent Trends and Future Applications in Natural
Language Processing"
(29th May 2024 - 8th June 2024)

Organized by
E & ICT Academy, NIT Warangal

in association with

Vasavi College of Engineering (Autonomous), Hyderabad

ACCREDITED BY NAAC WITH A++ GRADE.

(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

Objective:

The "E & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, GoI. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Kerala and Andaman & Nicobar Islands. This academy's mission is to offer Faculty Development Programmes in various specialized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

Objective of FDP:

This faculty development programme will help to disseminate knowledge in the domain of natural language processing. It is a hands-on, immersive learning experience designed to equip participants with practical skills and insights into the world of advanced language technologies. This FDP will cater to individuals seeking to enhance their understanding of NLP and leverage the capabilities of large language models for their business applications. It covers LLMs starting from the basics, the way to building and using text representation and text generation models. This FDP is designed to empower participants with the practical know-how to leverage NLP and large language models effectively. It will empower the participants to understand how large language models can be used to innovate and improve the natural language processing products. The participants will be trained with hands-on approach in order to have an in-depth insight into the domain of natural language processing with LLMs and expose them to the real scope.

Course Contents:

- ❖ Basics of Natural Language Processing.
- ❖ Open-source software Tools for NLP (Python/R)
- ❖ Text Representation and Text Pre-Processing
- ❖ Machine Translation and Topic Modelling
- ❖ Text Summarization-Sentiment Analysis -Text Classification
- ❖ Document summarization, Q&S Systems
- ❖ Multi-lingual zero-shot learning
- ❖ Transformation of NLP to Generative NLP (RNN, LSTM, Attention Model)
- ❖ Large Language Models (LLMs)
- ❖ Research issues in Natural Language Processing

Faculty conducting this programme:

This programme will be conducted by the faculty members at NIT Warangal. Academicians in the concerned field from IITs/IIITs are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee: Rs. 1000/-

Participants need to pay the Registration Fee Online using following details

Online Transfer Details

Account Name: Electronics & ICT
Academy NITW
Account No: 62421775910

How to apply:

Participants are required to fill the online registration form by clicking on the following link:

<https://forms.gle/949Yud1Y8HuLsbK1Z>

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 50 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail. In case a candidate is not selected, the DD will be sent back. Candidates will be issued satisfactory certificates on successful completion of the course. Reservations are followed for selecting candidates as per GOI norms.

Important dates:

Last date (Application & DD)	25.05.2024
Selection List by E- mail	27.05.2024
Duration	29.05.2024 to 08.06.2024

About NIT Warangal:

National Institute of Technology, Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B. Tech Degrees in various branches of engineering, M.Tech. and Ph.D programmes in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

About Vasavi College of Engineering:

Founded in 1981 by Vasavi Academy of Education, Vasavi College of Engineering (VCE) represents a rich tradition of excellence in technology-based education. A premier-league institution among the affiliates of Osmania University, VCE owes its vision to Sri Pendakanti Venkata Subbalah, a veteran statesman of Independent India. VCE has been conferred with Autonomous Status by the University Grants Commission (UGC), New Delhi and Osmania University, Hyderabad for a period of six years with effect from the Academic Year 2014-15, for all the UG and PG Programmes. The College is implementing Choice Based Credit System (CBCS). Accredited by NAAC with A++ Grade.

About CSE department:

The Department of Computer Science & Engineering was started in the year 1994 offering a 4Year B.E. course with an annual intake of 180 students and offers 2 year M.Tech course with an annual intake of 18 students. The department has well qualified and experienced faculty. The students are placed through campus recruitment in reputed organizations Microsoft, Accolite, Oracle, Pega Systems, Adtran, NCR, Deloitte, Qualcomm, Servicenow, Infosys, Cognizant etc. Osmania University has identified the department as a Research Center. Two Professors in the department are recognized as research supervisors for guiding Ph.D. students. We also offer value added courses in the form of CISCO Inet academy to meet the contemporary market

"Optimizing Fiber Laser Welding Parameters for Mechanical Property Enhancement: A Comparative Study on Homogeneous and Dissimilar Material Weldments"

Prasad Matam¹, A. Rajasekhar², Y. Madhu Maheswara Reddy³, D. Navcen Kumar⁴

Department of Mechanical Engineering,

Methodist college of Engineering and technology, Hyderabad

Abstract

Cobalt-based super alloy L605, equivalent to Haynes-25 or Stellite-25, is widely utilized in aerospace, turbine, furnace, and petroleum refining applications due to its exceptional properties. This research focuses on the successful fiber laser welding of Cobalt super alloy L605 and stainless steel 321 at various heat inputs. A simple yet versatile model for tensile testing of the laser beam welding (LBW) process is introduced, aiming to predict and experimentally investigate welding parameters in the fusion of L605 alloy and AISI 321.

The study employs Design of Experiment (DOE) to examine the impact of key welding parameters, including Laser Power, scanning speed, and focal position. Utilizing Taguchi's mixed model fractional factorial design, a Taguchi L9 (3³) orthogonal array comprising nine experiments is established. The LBW joints are subjected to tensile strength tests using a universal testing machine. Subsequently, the optimal parameter combination is determined through Signal-to-Noise ratio (S/N), while Analysis of Variance (ANOVA) is employed to identify significant parameters and their effects on tensile strength.

The SN ratio plot highlights that in similar weld processes, Laser Power exhibits the highest contribution to the observed variations, whereas in dissimilar weld processes, Scanning speed has the maximum impact on the weld quality.

Keywords: Fiber Laser Welding, Cobalt Alloy - L605, Anova Analysis, Tensile Test, Laser Power.

1. Introduction

Fiber laser welding has revolutionized modern manufacturing processes, providing unparalleled precision, efficiency and flexibility in a wide range of applications. This state-of-the-art welding technology uses a high-powered laser beam emitted from a fiber optic cable to join materials with exceptional accuracy and precision, making it particularly suitable for complex and delicate welding tasks. In the field of fiber laser welding, optimizing the welding process for different materials offers both serious challenges and promising advances in various industries.

Cobalt-based alloy L605 and stainless steel 321 (SS321) stand out as two exemplary materials that are widely used in demanding engineering applications due to their exceptional mechanical properties, corrosion resistance and thermal stability. Cobalt-based L605 alloy, known for its high strength, durability and resistance to oxidation and wear, is widely used in aerospace components, medical implants and industrial machines exposed to severe operating conditions. On the other hand, 321 stainless steel, distinguished by its excellent corrosion resistance, weldability and high temperature resistance, is the preferred material for critical components in chemical processing, automotive exhaust systems and pharmaceutical equipment.

However, a cobalt-based alloy for welding, L605 and 321 stainless steel together present inherent challenges due to their different material properties, including differences in thermal conductivity, melting points and metallurgical compatibility. Achieving a durable and reliable

ABSTRACT- Technological improvements have led to an increase of nonlinear loads, which in turn has a significant impact on the quality of power transmission. It is imperative that the level of energy purity conveyed by a transmission line be elevated. The key factors influencing power transmission are line impedance, sending end voltage, and receiving end voltage. Harmonic currents are made by nonlinear loads, which can cause system resonance, capacitor overloading, less efficiency, and a change in the amount of the voltage. The Distributed Power Flow Controller (DPFC) is a recently developed Flexible AC Transmission System (FACTS) device that utilizes the distributed FACTS (D-FACTS) idea. Unlike the Unified Power Flow Controller (UPFC), which employs a single large-sized three-phase series converter, the DPFC incorporates several small-sized single-phase converters. There are a multitude of series converters available that offer redundancy, hence enhancing the dependability of the system. The Distributed Power Flow Controller (DPFC) possesses similar control functionalities to the Unified Power Flow Controller (UPFC), including the capacity to regulate line impedance, gearbox angle, and bus voltage. This article presents the theoretical framework and analysis of DPFC, along with the associated experimental findings. The suggested methodology enhances power quality by integrating a low-cost Distributed Power Flow Controller (DPFC) with an Infinite Bus system. The integration of fuzzy logic with standard DPFC is implemented with the aim of enhancing power quality. The control circuit is implemented via Fuzzy Logic Control methodology and afterwards simulated through the MATLAB – SIMULINK software.

Keywords: Distributed Power Flow Controller, Flexible AC Transmission System, Fuzzy Controller, PID Controller, Power Quality.

1. INTRODUCTION

Over the course of the previous decade, power companies have placed significant emphasis on ensuring the integrity of electrical power. Power quality refers to the measurement of how the transmission and use of electrical power impact the operational efficiency of electrical devices, as perceived by the end user. A power quality issue refers to any departure from the expected values of voltage, current, or frequency that results in a disruption of power supply [1]. In order to enhance the quality of power for consumers, specialized power devices, such as the dynamic voltage restorer (DVR), are commonly utilized within

the medium-to-low voltage range. Voltage sags, characterized by a fall in voltage, and voltage surges, characterized by over voltages, present a significant risk to delicate electrical equipment within electrical grids [2]. The disruptions are a result of several occurrences, such as a short circuit in the power grid, the surges of electrical current that occur when heavy machinery is activated, and the procedures involved in switching the power grid [3].

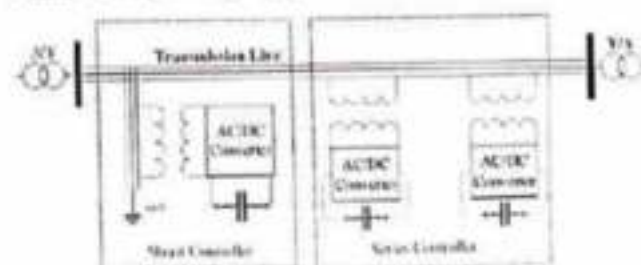

Figure 1. The DPFC Structure

In this article, a proposed device known as a distributed power flow controller. This device is employed to effectively address the fluctuations of voltage and current, hence enhancing power

Subject: Request for Reimbursement of PhD Fees

Requested Sir,

I am Namburi Nireekshana, Assistant Professor of EEED, MCET. I am writing to formally request the reimbursement of the fees I have incurred during my PhD program. As you are aware, I am pursuing a PhD at Annamalai University, having the admission year of 2019. I am grateful for the support the Institute has providing for my studies. In accordance with the Institutions policy on professional development, I am submitting this request for the reimbursement of my PhD fees. Attached to this letter, you will find all necessary documentation, including receipts and proof of payment for the expenses incurred. The total amount for which I am seeking reimbursement is Rs2, 28,030/- till date. A detailed breakdown of the fees and associated costs is included in the attached documents.

Thank you for considering my request. I look forward to your positive response.

Yours Sincerely,

Namburi Nireekshana
Assistant Professor

Respected Sir,

I, Dr. Y.Mastanamma working as Professor / HOD in the Department of EEE, am happy to intimate you that , I have successfully completed a 12 week (Jan-April 2024) *NPTEL online certification course on Smart Grid: Basics to Advanced Technologies* , with a consolidated score of 65 % and *received Elite certificate* . This course really helped me to gain knowledge on Smart Grid Technology and for VIII semester I dealt this professional elective course to our B.E, EEE students.

The course completion certificate and the receipt of the exam registration fee are attached herewith. Please consider as per our college rules.

Thanking You Sir,

Yours Faithfully,

Dr. Y. Mastanamma

Subject: Request for Remuneration for Characterization Expenses

Dear Principal,

I am writing to formally request reimbursement for the expenses I incurred in the process of research and characterization in nanomaterials.

As part of my research, I have taken characterization studies, which involved significant out-of-pocket expenses.

S.NO	DESCRIPTION	AMOUNT
1	FTIR	1250.00
2	XRD	1250.00
3	UV-visible - spectrum	1250.00
4	FESEM	1500.00
	TOTAL	5250.00

Enclosed with this letter are copies of the receipts and invoices related to these expenses. I have ensured that all expenditures were necessary and directly related to the successful completion of the research work.

I kindly request that you process this remuneration as early as possible. Thank you for your attention to this matter and your prompt assistance.

Yours sincerely,

Dr. Kodumuri Veerabhadra Rao

DEPARTMENT OF CIVIL ENGINEERING
UNIVERSITY COLLEGE OF ENGINEERING (A) OSMANIA UNIVERSITY

No. 179 /1/2024/CED/UC

Date: 11.06.2024

CIRCULAR

The following research scholars in Civil Engineering Department will present their Ph.D. (Research Progress Seminars) before DRC members on **15th June, 2024 (Saturday)** in the New E-Class Room (Room No. 209), CED, UCE, OU. The concerned students are advised to take note of the date and time and prepare accordingly.

All the DRC members & Faculty members are requested to attend the presentation along with their Ph.D. & PG students.

S. No	Name of the Scholar	Topic	Supervisor / Co-Supervisor	Time
1.	Rathod Vinod Kumar (1005-2018-2009)	Manufacture of HDPE plastic-sand aggregate concrete and Experimental study on Strength, Durability and Microstructure Submitted in partial fulfillment for the award of the degree	Prof. D. Rupesh Kumar	2:00 pm to 2:45 pm
2.	Faria Aseem (1005-2018-2006)	Evaluation of Suitability of Non-Rectangular Specially Shaped Columns in High Rise Buildings	Prof. D. Rupesh Kumar	2:45 pm to 3:30 pm
3.	D. Bharath Naik (1005-2018-2005)	Comprehensive Study on Effectiveness and Strength Evaluation of Stabilized Soil Subgrade with Enhanced Engineering Properties	Prof. R. Srinivas Kumar	3:30 pm to 4:15 pm
4.	D. Vinod Kumar Nayak (1005-2018-2013)	Statistical Analysis of Time and Cost Overruns in Irrigation Projects	Prof. N. Suresh Kumar (Retired)	4:15 pm to 5:00 pm

Subject: Requisitions for FDP fee payment reimbursement _regd.

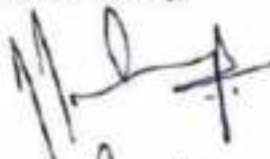

Respected Sir,

The Department of Computer Science and Engineering, Stanley College of Engineering and Technology for Women, ABIDS, Koti, conducted a 5 day Faculty Development Programme on "Artificial Intelligence, Machine Learning and Deep Learning" in association with National Institute of Technology, Warangal (NITW) i.e. from 02/10/2023 to 06/10/2023. For this FDP from Computer Science and Engineering Department 6 faculties are attended and completed, so requesting for reimbursement of Rs. 1000/- per each person. In this regard we requested your good selves to consider and do the needful.

Thanking you.

$6 \times 1000 = 6000/-$
HOD CSB
pls enclose receipt
