Faculty are also encouraged to use other ICT based teaching methods to help the students gain, better grasp and proficiency in the area of study.

Microsoft Teams is a dynamic digital classroom. Through this platform,

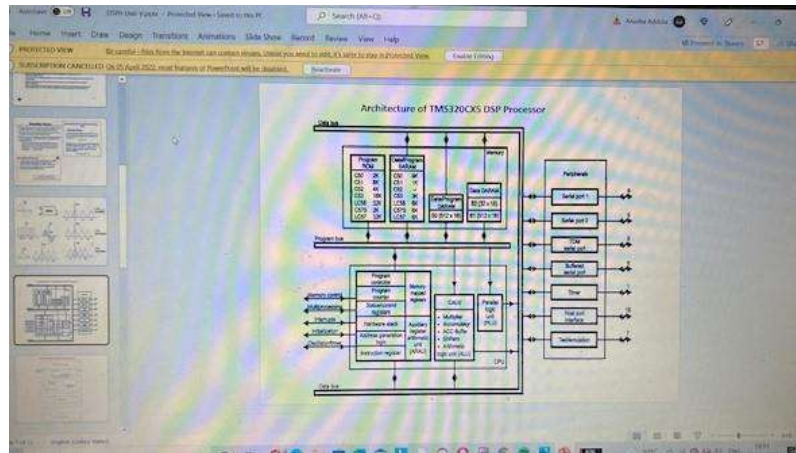

- **Online Teaching (MS TEAMS Platform):**

All the courses, in view of pandemic situation, have used google classroom to deliver lectures using MS Teams platforms. In some courses, especially problematic subjects, teachers delivered lectures using white boards so that problems and derivations can be taught in much efficient manner.

- **Power point presentations:**

Some of the tutors delivered lectures by sharing power point presentations which involves visual slides to make their lecture much interesting.

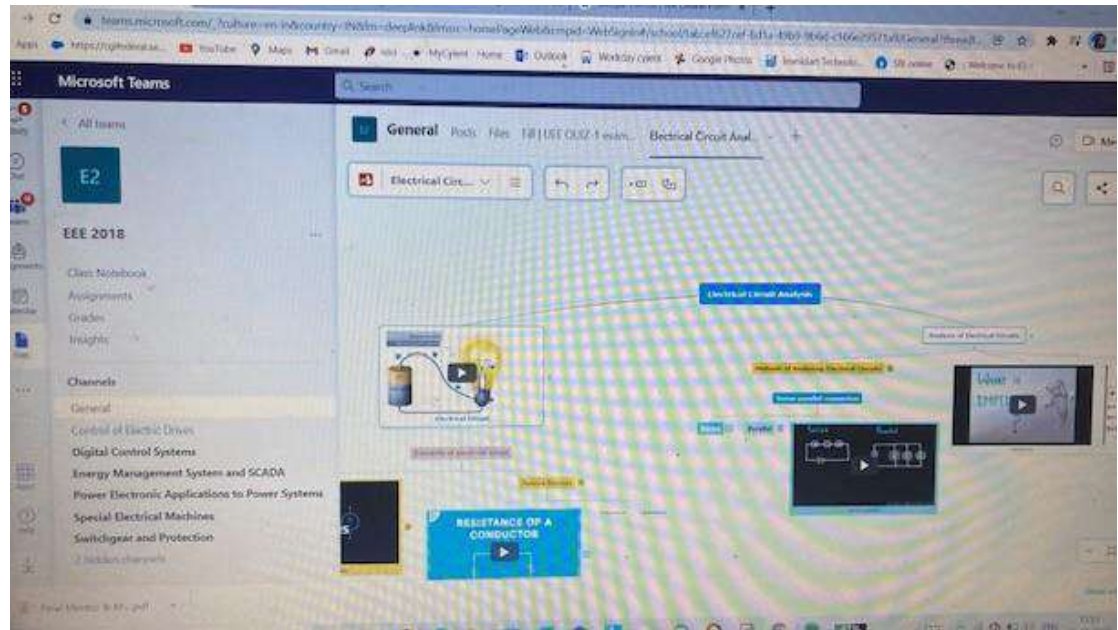

- **Video Lectures:**

In some courses, faculty have used animated videos to deliver their lectures so that students can visualize concepts in best way.

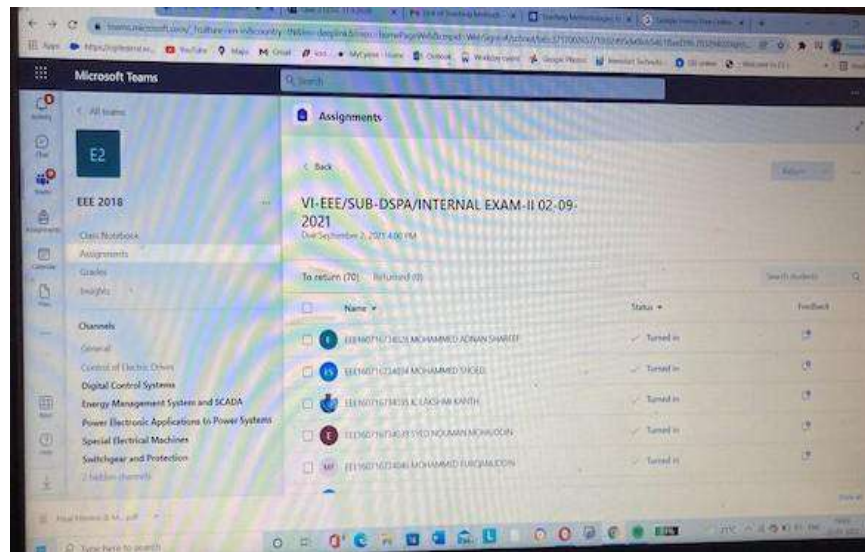

- **Mind Map Lectures:**

Lectures using Mind Maps were delivered to students to help them note down only the most important information using key words, and then make connections between facts and ideas visually.

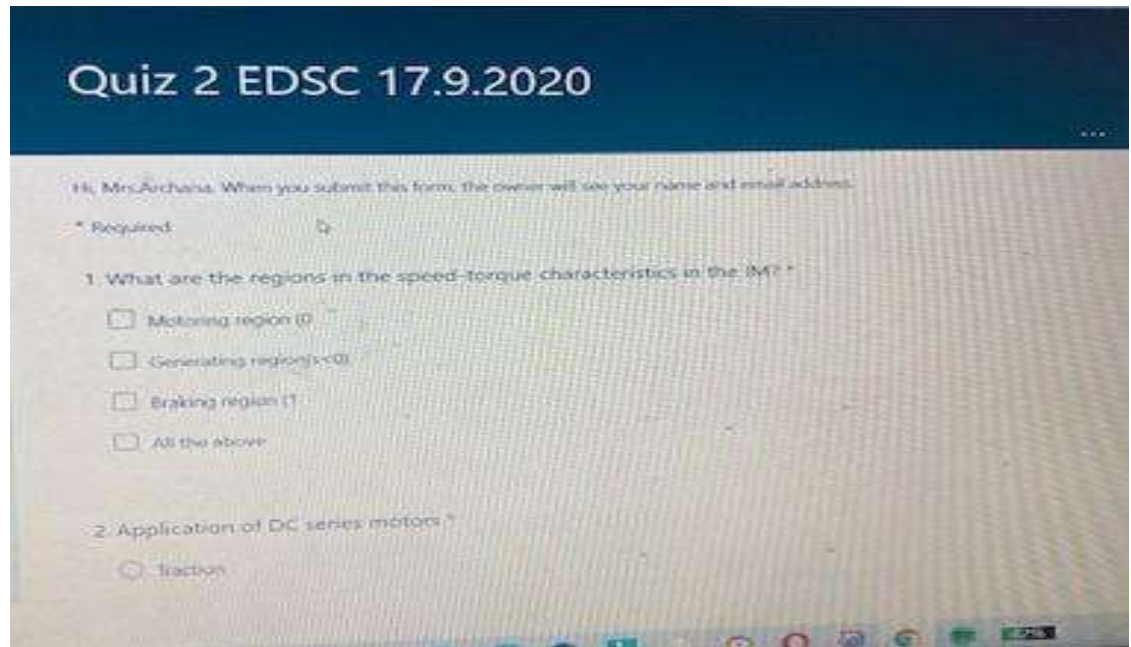

- **Online Assignments:**

All the faculty members have distributed and evaluated assignments using the Assignment tab available in this classroom in a transparent manner.

- **Online Quizzes:**

All the course instructors have created Quizzes using MS Forms and the links were shared to students and evaluation was automatically done.

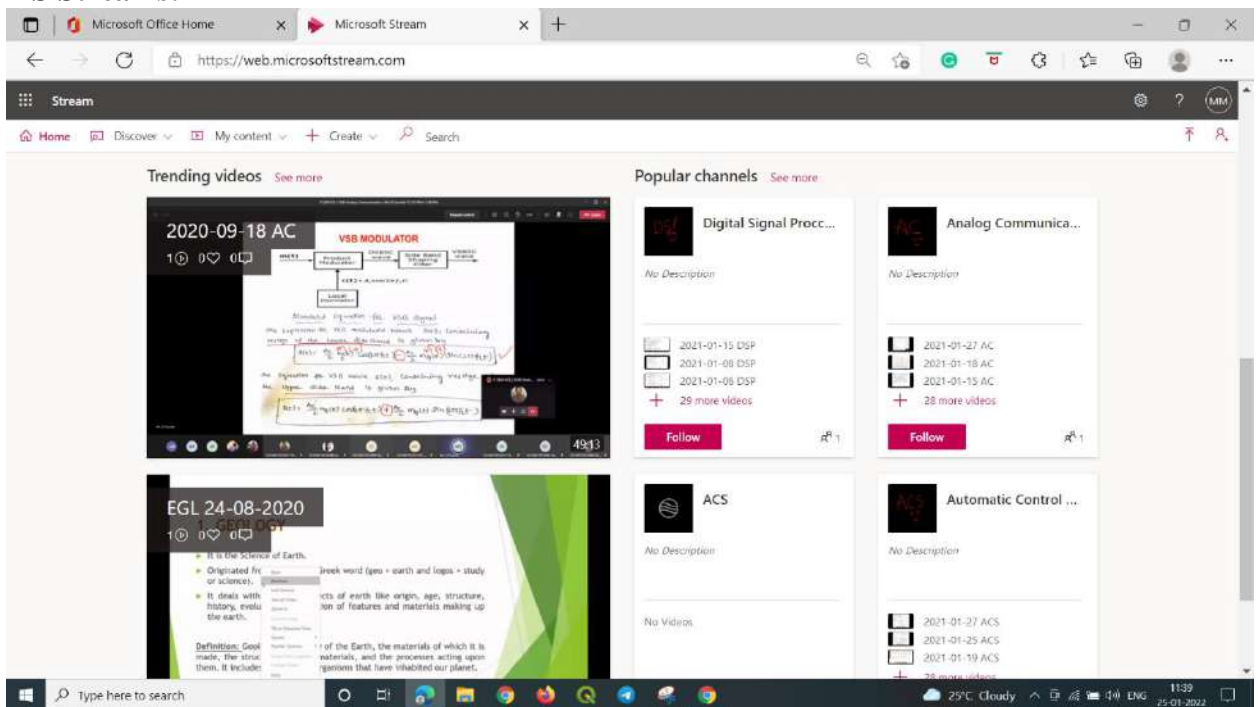

- **Virtual Labs:**

Some courses have conducted their practical lab sessions in virtual mode to enhance the learning levels of the students.

- **Online Viva Voce:**

In some of the laboratory courses, virtual meetings were conducted for external viva voce to evaluate the performance of the students.

- **MS Streams:**

Additionally, with Microsoft Teams, Teachers recorded the classes which were available for the future reference especially, for students who were absent for that specific class. Apart from that, teachers have also shared notes and power point presentations prepared for that course in their respective channels in MS Teams App.

About Talentio

Talentio was founded in Jan 2016 by a team of experienced professionals from the industry who have played key leadership roles in large organizations and have been associated with institutes of repute in various capacities.

Talentio is the fructification of the market need to have access to realistic, measurable, reliable, and industry oriented training programs that deliver results.

Several well-known partner colleges are enjoying the benefit of the virtuous cycle. With better placements, better admissions, better ranking students and a better brand name built on spectacular results, Talentio results!

TALENTIO FOR RESULTS

- BEST EDUCATION SERVICES PROVIDER IN THE ASSISTED PLACEMENTS SPACE
- ASSOCIATED WITH 50+ PREMIUM COLLEGES ACROSS 8 STATES
- PLACED 2500+ STUDENTS FROM 2017 PASSING OUT BATCH
- PLACEMENT RATIOS AS HIGH AS 8:10 FOR OUR FOCUSED PROGRAMS
- TRAINED MORE THAN 10,000 STUDENTS
- CONTENT BANK OF 8000+ UNIQUE QUESTIONS
- 1,00,000+ MAN HOURS OF TRAININGS DELIVERED

We unequivocally believe in the positive impact created by placement oriented training programs that leverage our methodology, analytics and market insight as a means to improve students' performance and drive placement effectiveness.

We believe all colleges can do better provided there is a customized program for them based on the specific needs of the students and the evolving hiring criteria of the industry.

Reinventing the Education Space:

Talentio is focused on raising the bar on employability training by redefining the approach and goal post of learning deliverables. In a fragmented market dominated by traditional 'training vendors' and off the shelf operators, Talentio is placed in an incomparable quadrant defined by its output orientation and a model built on delivery of high placement numbers consistently, efficiently and effectively.

Our guiding principles are based on Impact, Value and Learner Centricity. We are your **Results Team** that brings together process, consistency, ownership, predictability, risk-management, technology and market insight among various other components to deliver exceptional results.

Talentio is transforming learning delivery and changing how company specific programs and CRTs are delivered. In the heart is smart analytics and prediction technology that drives high impact learning in classrooms. Continuous Student Diagnostics feeds into Talentio's highly effective Adaptive Curriculum on the lines of our philosophy of transforming learning delivery in colleges. In our enviable journey for excellence, we continue to build memorable relationships with our learners, institutional management and diverse stakeholders with a national footprint.

How we get results

- Goal Oriented :
All our programs are outcome based. Our aim is results, not completion of hours.

- Customized and Dynamic :**

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.
