EVENT 01

GDSC MCET inaugural event

Program name: GDSC MCET inaugural event.

Program date:22nd September,2021

Venue: Seminar Hall, D block, Methodist College of Engineering and Technology, Abids, Hyderabad.

An inaugural ceremony for the Google Developer Student Club at Methodist College of Engineering and Technology was held on Wednesday 22nd September, 2021 at 2:00pm in the Seminar Hall, D block, MCET. The event was graced by the presence of distinguished faculty members and students.The program started with a power packed video presented by Mohammad Bilal, head of the club's PR team introducing the GDSC, followed by the welcome address delivered by him.

All the dignitaries present on the dais, along with other esteemed members of the faculty then proceeded with the lighting of the lamp. Dr P Lavanya,head of the CSE department spoke about the importance of such clubs and initiatives to upskill the students. She addressed the audience with full enthusiasm holding all the students captive with her encouraging words.

Dr.Lakshmipati Rao,the Director of our college enlightened the students with the importance of peer to peer learning, participation in events,also advised them on coming forward sharing their ideas and problems they are facing and told them how teachers would help the students with whatever they require. Then the principal of our college, Dr.Prabhu G Benakop spoke about how collective efforts are required to make the club successful and how everyone should be responsible for carrying outtheirduties.

The primary aim behind the inaugural event was to make the students aware of the fact
That the college has established a technical club for everyone to help them reach their goals,in finding the right approach, to give a platform for their ideas, and create a positive atmosphere in the student community.

After the inspiring speeches, Miss Amima Shifa, the lead of the GDSC introduced the club and gave a brief about its goals, team structure, roles and future prospects. And then the stage was taken up by theTeam Lead of Mobile App Development, Mr Preetham Kasturi who shed a light on how apps play an important role in the developing world,how we can create those apps,followed by the agendas of the team and how it will be beneficial for students.

It was then proceeded by Mr Abdul Moid Khan Mohammad,the lead of the web development team talking about how websites are important no matter how small the field of work can be and how you can make your presence felt with websites and how they will help students in making websites that will meet the modern needs. Followed by the lead of the AI&ML team,Mr Pininti Sreekar Reddy spoke about how AI has changed our lives and how students can build their careers in that particular field. Then, Mr Hemanth, the lead of the Competitive Programming team took over to explain what competitive programming is, where it is used and how his team will help the student community to get into the field.

Taking the event forward,the Cloud and DevOps team lead,Mr Gursimar Singh gave insights into what Cloud & DevOps actually means and what will be its value inupcoming years. And then the most awaited moment came when Miss Dakshita Paithara and Mr Mohammed Abdul Basith,members of the Cloud & DevOps team shared the wonderful news of 30 days of Google Cloud program where the students can expand their cloud domain knowledge and can gain rewards for doing so, they also spoke about what the program will be about and how it will take place. In the end,MissSpoorthi,theheadoftheeditorialsectionofthePRteam,extendedavote of thanks and expressed her gratitude to all the college faculty and the student community for making this event a success.

EVENT 02

30 Days of Google Cloud

Program facilitator : Dakshita Paithara

Program duration: October 27th 2021- September 27th 2021

Venue: Online

Whatisthe30DaysofGoogleCloudprogram?

30 Days of Google Cloud provides students with an opportunity to kickstart their learning on cloud technology using practice on Google Cloud - the tool that powers apps like Google Search, Gmail and YouTube.

One person from the campus was nominated to be a facilitator and lead this initiative in the college.Upon nomination and selection, the facilitator received training on how to lead these sessions and motivate more students to participate.

Description:

It all started by conducting an event offline and introducing the program within the campus to all the students in the first, second, and third years.

On October 27, 5 pm the registration link was out and many students got enrolled, they showed great interest and gained hands-on practice on the google cloud platform by using the tools provided by the cloud and completed the tracks.

These 30 days allowed the students to take a holistic approach to the introduction of the cloud world.

The final report of the program:

Metric	Value
No. of students enrolled from your campus	138
No. of wrong applications	15
No. of Skill Badge completions in Track 1	135
No. of Skill Badge completions in Track 2	109
No. of students eligible for Track 1 prizes	20
No. of students eligible for Track 2 prizes	16
No. of students completing atleast 1 track	20
No. of students completing both tracks	16

EVENT 04

Android Study Jams

Program facilitator: Preetham Kasturi

Program duration: November 29th 2021-January 10th 2022

Venue: One session offline and two sessions online

What are Android Study Jams?

Android Study Jams are a series of study groups, workshops or sessions organized andfacilitated by a GDSC campus for their students to kick start their learning on Modern Android Application Development using Kotlin. Students learn how to develop their very own beautiful & functional Android apps.

Description:

The GDSC team shared the introductory video about these exciting study jams to grab the interest of the students and develop a curiosity for the program. The first session was held on December 20 2021, at 7 pm, after students registered through the RSVP link. They showed great interest and gained hands-on practice and understanding of Android application development by using the course curriculum provided by google and completing the pathways.This period allowed the team to take a holistic approach in introducing the world of android application development using Kotlin, which helped students around the college from 1st to final years to learn android application development.

The list of student attendees all over the sessions:

METRIC(Number of Students)	VALUE
Joined the ASJ Group	257
ASJ Session-1	121
ASJ Session-2	124
ASJ Session-3	155
Filled the Final Submition Form	80
Completed all the pathways	52

ML Study Jams

Program facilitator: P.Sreekar Reddy

Program dates: April 29th 2022, 2:15PM(IST), 3:15PM(IST), May 13th ,7:30PM (IST) , May 14, 7:30 PM (IST)

Venue: Online and offline 2 events each

What is ML Study Jam?

ML Study Jams provides students a roadmap of Machine learning with introducing them into the world of Data science. This gives them an overview of Python, Data visualization, Pandas and many more to help them kickstart their ML learning journey. This helped them to gain practical experience to work on real projects and a chance to get certified.

Description:

The first two sessions of Ml Study Jams concentrated on Explore ML‘s beginner nd intermediate tracks and contribution to CrowdSource. The third session of ML Study Jams helped students get started with the Kaggle Certification Courses. This was a study program going through Kaggle courses sequentially.

After completion of the courses students received Kaggle Machine Learning Certifications along with Explore Ml certifications for their participation in the first two sessions.

EVENT 10

Firebase for Web Campaigns

Program facilitator: Abdul Moid Khan Mohammed

Program dates: May 25th 2022,7:00PM(IST) and May 27th 2022,7:00PM(IST)

Venue: Online

Description:

As a part of Firebase for Web Campaigns, two bootcamps of 2hrs+ each were organized to help students get started into the world of Web Development. The first bootcamp titled-"HTML, CSS & Java Script Bootcamp"was an introductory session to HTML, CSS & JavaScript to gear up for Angular and Firebase. Concepts covered included basic and commonly used HTML tags along with their styling by CSS in addition to some DOM Manipulations by JavaScript.

The second bootcamp titled - "Intro to Angular and Firebase - Bootcamp"included demonstration of resume building using only HTML and CSS, hosting website on GitHub and the basics of Angular and deployment of a web app on Firebase.

For certification applicants were required to submit two assignments, one each for each bootcamp, on successful completion oftheassignments,thewererewardwith certificates.
