INTERNSHIP COMPLETION CERTIFICATE

This is to certify that **Mr. Syed Imamuddin (Roll No: 160721735082)**, a Final year student from the **Electronics and Communication Engineering Department (Section B)** of **Methodist College of Engg and Tech.** has successfully completed an intensive **one-month internship** in **Internet of Things (IoT)** at EdVenture Park's Hardware Incubator from **May 5 to June 5, 2024**.

During the internship, the intern demonstrated exceptional commitment and participated in comprehensive training covering advanced IoT technologies, system architectures, and practical implementation strategies. The program encompassed theoretical learning and hands-on project work, providing deep insights into emerging IoT technological domains.

The intern successfully engaged with complex IoT concepts, exploring advanced sensor technologies, wireless communication protocols, cloud integration, data analytics, and real-world IoT applications across multiple sectors including smart home systems, industrial automation, healthcare monitoring, and agricultural technology.

Throughout the internship, the participant developed significant technical proficiency, showing remarkable ability to understand and apply sophisticated IoT technological frameworks and demonstrating strong potential for future technological innovations in the Internet of Things ecosystem.

The intern's consistent performance, technical acumen, and enthusiastic approach reflect a comprehensive understanding of IoT principles and practical implementation methodologies.

ASTHRA PROJECTS

Date 10- Jun - 2024

Place : Hyd

TO WHOM IT MAY CONCERN

This is to certify that L SRI VIHAAN CHANDRA has completed his summer internship as designing and developing Printed Circuit Boards (PCB) INTERN at Asthra projects from 6th May 2024 to 3rd June 2024.

Working as intern, he has gained experiences on techniques and technologies of create components from manufactures specs for CAD library, schematic capture board layout and route, routing the board after placing components, generating Gerber files (using cam 350) for photo plotting, preparing PCBs fab and assembly drawings.

During his internship, he has demonstrated his skills with self-motivation to learn new technologies, Skills and Methodes. he has matched our expectations for completing the tasks and assignments on time.

We all wish him all the best for his upcoming career.

With all the best wishes,

For Asthra projects
