## LETTER OF INTENT

This aggregation involves contributions to Sushi Linux as a part of the Open Source Initiative (OSI). Contributions may reflect upon and appreciate the usage, promotion and implementation of Linux and open source community. Initiatives are to encourage contributors who add or suggest features and improve existing ones through the Sushi Linux community. The growth of the open source community has a direct relation to the growth in Sushi Linux. You are to promote and protect open source software and communities and to raise awareness and adoption of open source software, and build bridges between open source communities of practice. This initiative is to bring software freedom in society through education, collaboration, and infrastructure, stewarding the Open Source Definition (OSD), and preventing abuse of the ideals and ethos inherent to the open source movement.

Open source software is made by many people and distributed under an OSD-compliant license which grants all the rights to use, study, change, and share the software in modified and unmodified form.

Help sustain Sushi Linux and OSI for many more years to come.

## About

The purpose of Sushi Linux is to produce a comfortable operating system which is both powerful and easy to use.

Sushi Linux is a desktop Linux distribution and aimed at most widely used home operating system users behind Microsoft Windows and Apple Mac OS.

Some of the reasons for the success of Sushi Linux are:

- It works out of the box, with full multimedia support and is extremely easy to use
- It's free of cost
- It's community-driven. Users are encouraged to send feedback so that their ideas can be used to improve Sushi Linux.
- Based on Debian, it provides about 30,000+ packages and one of the best software managers
- It's safe and reliable. Thanks to a conservative approach to the robustness of its Linux architecture
- Sushi Linux requires very little maintenance (no regressions, no antivirus, no anti-spyware...etc)

Supported by-

# MVSR Engineering College

(Sponsored by Matrusri Education Society, Estd. 1980)

Affiliated to Osmania University & Recognised by AICTE

Nadargul (P.O), Hyderabad - 501 510.
