

METHODIST

COLLEGE OF ENGINEERING & TECHNOLOGY

[Autonomous Institution]

Accredited by NAAC with A+ and NBA
Affiliated to Osmania University & Approved by AICTE

DEPARTMENT OF ECE

Dates: December 26th, 2022 - January 6th, 2023

The Department of Electronics and Communication Engineering successfully conducted an enriching Atal Faculty Development Program (FDP) on Industrial Internet of Things (IIoT). Spanning from December 26th, 2022, to January 6th, 2023, the program aimed to empower faculty members with the knowledge and skills necessary to harness the transformative potential of IIoT in engineering education and research.

Participants:

All faculty members from the Department of Electronics and Communication Engineering enthusiastically participated in the Atal FDP on IIoT. Their active engagement and commitment to professional development underscored the importance of the program in enhancing teaching effectiveness and fostering research excellence within the department.

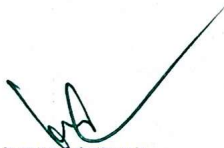

Key Highlights:

Expert-Led Sessions: Renowned experts in IIoT delivered informative sessions covering a wide range of topics, including sensor networks, data analytics, cyber-physical systems, and IoT security. Faculty members gained valuable insights into the theoretical foundations and practical implications of IIoT, enriching their understanding of its potential applications across various domains.

Research Opportunities: The program highlighted research opportunities in IIoT, encouraging faculty members to explore interdisciplinary collaborations and pursue innovative research projects. Through networking opportunities and mentorship sessions, participants identified potential research areas, funding sources, and industry partnerships, laying the groundwork for impactful research contributions.

Conclusion:

In conclusion, the FDP exemplified the department's commitment to fostering excellence in teaching, research, and industry collaboration in the field of IIoT. By equipping faculty members with the tools and resources needed to stay at the forefront of technological advancements, the program reinforced the department's position as a leader in engineering education and research.
