

A.Y 2019-20

Date: 9th Nov, 2019.

Name of the Event: water saving campaign

Venue: Seminar Hall

Summary Report

NSS volunteers of 1st years organized a “WATER SAVING CAMPAIGN” event on 8th November, 2019. This event is being organized due to the fact that Hyderabad or the whole India is facing water scarcity and also the fact that our future generations could have a threat of extinction if this same situation goes on. We all know that we have to save water, but only some people practice it practically.

The event started with lighting of the lamp by the Director, Vice |Principal, A.O, NSS PO and other faculty coordinators of the college and followed by speech and other competitions held in the seminar hall at 2:30 pm . Almost 300 students along with 20 faculty members participated in this event and made grand success. We spent around Rs.3000/- for Banners, Broachers and gifts for the winners in the event.
