# Image: Contract of Contract of

EDiMate = ED (Engineering Drawing) + aniMate (giving LIFE).

EDiMate is our effort to bring to life all those lifeless & boring diagrams in the books to LIFE on digital screens. The app is still in the initial stages of development. But it provides you with something which is super exciting compared to all other apps.

EDiMate provides you with the ability to play around with different inputs & get fully drawn diagrams along with neatly written steps for a question that you can chose. Right now the app can solve Projection of Lines problems.

EDiMate also contains a link to around 52 previous JNTU papers on the subject. Finally, it also has some videos from our YouTube Channel - bit.ly/cadmate.

EDiMate started out with the challenge of solving all the problems in Engineering Drawing / Graphics given in ANY BOOK AROUND THE WORLD. In the current demo you can create solutions to any combination of inputs on a Projection of Lines problem.

EDiMate Pro app allows you to play around with more type of problems with different inputs. It's still in beta phase. But it can still create solutions to a great percentage of problems. Download it here bit.ly/sriapk

Right now, it will be helpful as an additional tool which you can use to understand projections with trial & error method. We hope that in near future it will replace & enhance the experience of both Learning & Teaching the subject.

Given Below are some ways in which you can use this app:

## CLASSIC STYLE.

As soon as you load the app you're presented with a problem with some preset values. Press the DRAW BUTTON & the diagram with complete steps will be generated. Classic book style!

| Apps             | Categories Home Top charts New releases  |  |  |  |  |  |  |
|------------------|--|--|--|--|--|--|--|
| My apps          | values will be drawn in an instant. Even steps and the question will be changed accordingly.   |  |  |  |  |  |  |
| Shop             | PLAY THE STEPS   |  |  |  |  |  |  |
|                  | Use the steps buttons to jump to any step you want & move forward or backward as you please till   |  |  |  |  |  |  |
| Games            | you understand the steps to draw. We are working on adding animations as well. So stay tuned.  |  |  |  |  |  |  |
| Family           |  |  |  |  |  |  |  |
| Editors' Choice  | READ THE STEPS<br>We have taken great care to write steps that don't miss any point. Practice by following the steps<br>generated till you understand the problem & start solving problems on your own.  |  |  |  |  |  |  |
|                  |  |  |  |  |  |  |  |
