To

Mr. P. Praveen Project Manager, SATVEN, Hyderabad.

Dear Sir,

Subject: Request your consent to participate in one day Industry – Institution – Interaction meet on 05.02.2018 – Reg.

We are pleased to introduce ourselves that Methodist College of Engineering and Technology is established in the year 2008, situated in Abids, the heart of the Hyderabad city to promote engineering education to both urban and rural students. The college is offering under graduate engineering courses (Civil-120; CSE -120; ECE -120; EEE-60 ME-120) with a total intake of 540 and post graduate course M.E. (CAD / CAM) with an intake of 18 apart from MBA with an intake of 60. The institution is approved by AICTE, New Delhi and affiliated to Osmania University.

With the advent of globalization and opening up of Indian economy to outside world, competition among industries has become stiff. Availability of skilled personnel has become a challenge to the industry. To solve their engineering problems they look up now to engineering institutions.

Similarly, though the Institutes are imparting the basic knowledge and skill, the student community is not in a position to get employable as per the industry requirement. Hence there is an urgent need to prepare engineering students to take up jobs in various industrial sectors, by exposing them to newer technologies and engineering methodologies.

These objectives can only be achieved well by bridging the gap between industry and the academic institutions. In this regard, the government of India is striving hard to enhance the knowledge and skill of the Indian youth through various programs like National Skill development centers. However availability of well equipped manpower with employability skills has become a challenge.

Contd....02

In view of this, the Department of Mechanical Engineering, Methodist College of Engineering & Technology is coming up with a proposal to have one day interaction program between the students, faculty and industry experts to discuss on the above challenges. The students from other institutions may also be encouraged to participate in the program which includes panel discussions and expert interaction sessions from eminent industry persons. The meet is planned to organize on 05.02.2018.

In this regard, I take privilege in inviting you to participate in the meet (panel discussions / expert interactive sessions) and help us in the development of employable skills in students.

Thanking You Sir.

Dear Faculty,

Greetings from Telangana Academy for Skill and Knowledge-Academy Support Center!!

Thank you for nominating the faculties for CCNA Routing and Switching 1 & 2 training.

As you are aware of that TASK-ASC is planned to conduct the CISCO Networking Academy CCNA Module(1&2) training at ANURAG GROUP OF INSTITUTIONS FORMERLY CVSR and as you have submitted your nominations to the same.

The aim of this Training is to train CCNA Routing & Switching Module(1&2) for the CISCO networking academies. We would like you to make best use of it.

We request all the faculty to utilize the time efficiently and not to take any leaves during the training days.

Below are the Training Details

Course Name : CCNA Routing and Switching 1 & 2 training.

Duration: 11 Days

Start Date : 17th Jan 2019
End Date :30th Jan 2019
Timings : 9:30 AM to 5:30 PM

Venue : Anurag Group of Institutions (formerly CVSR)-Venkatapur (V), ,Medchal,Telangana,500088.

Trainer Details: Dr. Nithin Pandey, Amity Institute of Information and Technology-ITC

SPOC : Mr. Ravinder Naik (TPO, NetAcad Incharge)

Contact No :8008623107

Please note that the working lunch and Tea will be provided on the days of the training and all the participants are required to make arrangements for their own travel and accommodation.

Also request all instructors to block the days in your calendar for the program. For any Queries you can reach us on 9700016143 and 8886220324

Wish you a very all the best for your training.

Look forward to your participation.

Best Regards,
Rekha A
