IIT Bombay

Subject: Submission of Planning of Spoken-Tutorial Software Training program to the Methodist College of Engineering and Technology for the academic year 2016-2017.

Methodist College of Engineering and Technology, Hyderabad happily announces the collaboration with Spoken Tutorial Project of IIT Bombay as Spoken Tutorial Resource Centre, an initiative of National Mission on Education through ICT, MHRD, Govt. of India.

The Spoken Tutorial project is the initiative of the 'Talk to a Teacher' activity of the National Mission on Education through Information and Communication Technology (ICT), launched by the Ministry of Human Resources and Development, Government of India.

Methodist College of Engineering and Technology, Hyderabad, Spoken Tutorial Resource Center will be conducting Trainings on Linux, LaTeX, Scilab, PHP&MySQL, Python, Java, C/C++, Netbeans, open office, OScad, K-Turtle.

Our Future Plans as a FOSS Resource Centre:

First of all, a workshop on spoken-tutorial program and FOSS will be conducted for all the college admin staff. Workshop on spoken-tutorial program was already conducted for the teaching staff of all departments. We are planning to conduct FOSS awareness programs in the nearby colleges. We are aware that, as a FOSS resource centre, it becomes our duty to popularize the FOSS and spoken-tutorial program in the educational-institutes in and around our college. These awareness programs will be implemented in the coming months. Promotion of FOSS through our college website will be done as well.

We are happy to bring to your notice that for the students of our college under Spoken Tutorial Project many courses are offered. Following is the schedule of the courses offered by different departments.

IIT Bombay

Subject: Submission of Planning of Spoken-Tutorial Software Training program to the Methodist College of Engineering and Technology for the academic year 2016-2017.

Methodist College of Engineering and Technology, Hyderabad happily announces the collaboration with Spoken Tutorial Project of IIT Bombay as Spoken Tutorial Resource Centre, an initiative of National Mission on Education through ICT, MHRD, Govt. of India.

The Spoken Tutorial project is the initiative of the 'Talk to a Teacher' activity of the National Mission on Education through Information and Communication Technology (ICT), launched by the Ministry of Human Resources and Development, Government of India.

Methodist College of Engineering and Technology, Hyderabad, Spoken Tutorial Resource Center will be conducting Trainings on Linux, LaTeX, Scilab, PHP&MySQL, Python, Java, C/C++, Netbeans, open office, OScad, K-Turtle.

Our Future Plans as a FOSS Resource Centre:

First of all, a workshop on spoken-tutorial program and FOSS will be conducted for all the college admin staff. Workshop on spoken-tutorial program was already conducted for the teaching staff of all departments. We are planning to conduct FOSS awareness programs in the nearby colleges. We are aware that, as a FOSS resource centre, it becomes our duty to popularize the FOSS and spoken-tutorial program in the educational-institutes in and around our college. These awareness programs will be implemented in the coming months. Promotion of FOSS through our college website will be done as well.

We are happy to bring to your notice that for the students of our college under Spoken Tutorial Project many courses are offered. Following is the schedule of the courses offered by different departments.

Software Offered

Currently Spoken Tutorial project offers software training on the below mentioned list of software, applications and programming languages.

Spoken Tutorial Software Series

No.	Software	Application
1	Basic IT Skills package	<p>Learn how to use</p> <ul style="list-style-type: none"> The Linux operating system LibreOffice Suite - for basic Office applications and Firefox web browser - to browse the internet safely <p>This package is useful to all who wish to learn basic IT skills. Absolute must for beginners.</p>
2	Ascend	<p>ASCEND is a free, open source, mathematical modelling system.</p> <p>Its main uses have been in the field of chemical process modelling, with its novel modelling language conventions and powerful solver. Useful for Chemical Engg and Chemistry students.</p>
3	BASH	<p>Bash is a "Unix shell" command-line interface for interacting with the operating system. Bash has the ability to run an entire script of commands, known as a "Bash Shell script" or "Shell script".</p> <p>Familiarity with GNU/Linux command lines, and familiarity with basic programming concepts is a pre-requisite for learning BASH. System administrators will greatly benefit by learning to automate common tasks using BASH.</p>
4	Biopython	<p>Biopython is a collection of Python tools for computational biology and bioinformatics. Biopython contains modules and classes to represent protein sequences, nucleic acid sequences and sequence annotations.</p>
5	Blender	<p>Open source equivalent to Maya and 3DMax. Useful to create 3D Animation for Architecture & Animation students. Can be used by Civil Engineering students, also.</p>
6	C and C++	<p>Powerful features, simple syntax, and portability make C a preferred language among programmers, for business and industrial applications. Widely used in the development of operating systems.</p>
7	Advanced C	<p>For Advanced C series, learner should necessarily go through C and C++ series beforehand.</p>
8	Advanced C++	<p>For Advanced C++ series, learner should necessarily go through C and C++ series beforehand.</p>
9	CellDesigner	<p>CellDesigner is a process diagram editor for drawing gene-regulatory and biochemical networks. CellDesigner is used for user-friendly visualization</p>
