1. Vision and Mission

Vision of the Institute:

To produce ethical, socially conscious and innovative professionals who would contribute to sustainable technological development of the society.

Mission of the Institute:

To impart quality engineering education with latest technological developments and interdisciplinary skills to make students succeed in professional practice.

To encourage research culture among faculty and students by establishing state of art laboratories and exposing them to modern industrial and organizational practices.

To inculcate humane qualities like environmental consciousness, leadership, social values, professional ethics and engage in independent and lifelong learning for sustainable contribution to the society.

Vision of the Department:

To become a leader in providing Computer Science and Engineering education with emphasis on knowledge and innovation.

Mission of the Department:

- ◆ To offer flexible programs of study with collaborations to suit industry needs.
- ◆ To provide quality education and training through novel pedagogical practices.
- ◆ To expedite high performance of excellence in teaching, research and innovations.
- ◆ To impart moral, ethical values and education with social responsibility.

2.PEO/PO/PSO's

PROGRAM EDUCATIONAL OBJECTIVES

After 3-5 years of graduation, the graduates will be able to

PE01:Apply technical concepts, Analyze, synthesize data to Design and create novel products and solutions for the real life problems.

PE02: Apply the knowledge of Computer Science Engineering to pursue higher education with due consideration to environment and society.

PE03: Promote collaborative learning and spirit of team work through multidisciplinary projects

PE04: Engage in life-long learning and develop entrepreneurial skills.

PROGRAM OUTCOMES

Engineering Graduates will be able to:

P01. Engineering knowledge: Apply the basic knowledge of mathematics, science and engineering fundamentals along with the specialized knowledge of computer science engineering to understand complex engineering problems.

P02. Problem analysis: Identify, formulate, design and analyze complex computer science engineering problems using knowledge of science and engineering.

P03. Design/development of solutions: Develop solutions for complex engineering problems, design and develop system components or processes that meet the specified needs with appropriate consideration of the public health and safety, and the cultural, societal, and environmental considerations.

P04. Conduct investigations of complex problems: Formulate engineering problems, conduct investigations and solve using research-based knowledge.

P05. Modern tool usage: Use the modern engineering skills, techniques and tools that include IT tools necessary for mechanical engineering practice.

P06. The engineer and society: Apply the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

P07. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

P08. Ethics: Apply ethical principles and commit to professional ethics and responsibilities during professional practice.

P09. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

P010. Communication: Communicate effectively on complex engineering activities to various groups, ability to write effective reports and make effective presentations.

P011. Project management and finance: Demonstrate and apply the knowledge to understand the management principles and financial aspects in multidisciplinary environments.

P012. Life-long learning: Recognize the need for, and have the preparation and ability to engage in Independent and life-long learning in the broadest context of technological change.

PROGRAM SPECIFIC OUTCOMES

At the end of 4 years, Computer Science and Engineering graduates at MCET will be able to:

PS01: Apply the knowledge of Computer Science and Engineering in various **domains** like networking and data mining to manage projects in multidisciplinary environments.

PS02: Develop software applications with open-ended programming environments.

PS03: Design and develop solutions by following standard software engineering principles and implement by using suitable programming languages and platforms

3. Message from the Head of the Department

The Department was established in the year 2008 with an intake of 60 and subsequently enhanced to 120 in 2010. The present student strength is 300+ and faculty strength is 29. The department constitutes a group of energetic, experienced and well qualified faculty from industry and academia. The department houses state-of-the-art laboratories providing hands-on training and thus encouraging them to build major and minor projects. The alumni of the department are well placed in core companies and MNCs. The department instills quality education with holistic development.

The students are encouraged to train and update their technical skills through various in-house trainings, knowledge transfer workshops, value added courses and project exhibitions. They are motivated to improve their communication & written skills through special trainings, to participate in extra-curricular activities, sports etc. The students are continuously evaluated through internals and quizzes. The slow learners are monitored with much more care and hence are uplifted towards betterment.

The department emphasizes a student – centric and friendly learning environment by systematically balancing academics and activities. The Faculties and students always work in tandem in organizing the various college level activities and technical fests. The relentless efforts of the faculty have helped the department in earning a good name & fame in a short span of time.

4. Department Achievements

1. Department of CSE is accredited with NBA for three years from 2021.
2. Center for Artificial Intelligence Lab was inaugurated by Prof D Ravinder - Vice Chancellor of Osmania University, Hyderabad; Guest of Honor Prof P V Sudha - Director, CoE, AI & ML, under RUSA 2.0, Dean, Faculty of Informatics at Osmania University, Hyderabad and Dr Lavanya Pamulaparthi - Prof & Head, CSE, MCET On December 3rd 2022.
3. Department has been sanctioned an amount of Rs.1,00,000(1 Lakh) towards a project under the SCHEME FOR PROMOTING INTEREST, CREATIVITY AND ETHICS(SPICES) among the students by AICTE.
4. Identified as **ACADEMIC CENTER** for Promoting the learning and usage of Free & Open-Source Software (FOSS), by **SPOKEN TUTORIAL, IIT MUMBAI**.
5. “New computing facility and incubation centre for advanced and research” labs inaugurated by **Dr.P. Laxmi Narayana, Registrar OU, Hyderabad** on 3rd July 2021.
6. The department has setup **SWAYAM - NPTEL local chapter** in collaboration with **MHRD, Govt of India**.
7. **MS Teams for Digital Learning, Hireme online tools** for the whole college for conducting online classes and examinations.

5. Events Organized

PHP Playground: Hands-On Web Development Workshop

The Department of Computer Science and Engineering organized a one-day workshop titled “PHP Playground: Hands-On Web Development” for BE VI SEM CSE students on 22nd April 2024. The workshop aimed to immerse students in PHP, a server-side scripting language essential for web development.

The workshop was conducted by **Ms. Saba Ahamed Jalal**, a skilled Software Engineer from **ServiceNow**. Her expertise and industry experience provided valuable insights into modern web development practices.

The workshop commenced with an **introduction to PHP**, outlined by Ms. Jalal, emphasizing its significance in the current web development landscape. Students were acquainted with PHP syntax, data types, and basic programming constructs.

Ms. Jalal guided the students through a series of **hands-on exercises**, where they actively engaged in writing PHP scripts. The exercises included tasks such as form handling, session management, and database interactions, providing a practical understanding of PHP’s capabilities.

Ms. Jalal explained about Php syntax and constructs.

Participants learned to create dynamic web pages

The workshop concluded with a Q&A session, where Ms. Jalal addressed students' queries and provided insights into advanced PHP topics. The hands-on approach was instrumental in enhancing the students' practical knowledge and equipping them with the tools to excel in web development.

Seminar on Understanding and Overcoming Procrastination

A Seminar on **Understanding and Overcoming Procrastination** was organized by MCET Student Counselling and Mentoring Cell on 23rd April 2024. Dr.Kiran Rathore, Clinical Psychologist, Hyderabad delivered the session.

Dr. Rathore's session was both enlightening and practical, offering valuable strategies for overcoming procrastination and emphasizing the crucial role of effective time management. Her engaging presentation not only provided theoretical insights but also equipped students with actionable tools to manage their time better and enhance their productivity.

The seminar concluded with a vibrant Q&A session, where Dr. Rathore addressed individual concerns and offered personalized advice. The feedback from attendees was overwhelmingly positive, with many expressing appreciations for the practical tips and the clarity with which Dr. Rathore discussed the subject.

Dr. Sharada Varalakshmi, Prof, AI&DS has extended heartfelt gratitude to Dr. Rathore for her time and expertise, and to all the participants for their enthusiastic engagement.

Glimpse of the Session

The knowledge gained will inspire and empower students to tackle procrastination and embrace more efficient time management practices in their academic and personal lives.

8. Faculty Achievements/ Rewards

1. **Dr. Lavanya Pamulaparty** is **SPOC** (Single Point Of Contact) for **SWAYAM- NPTEL local chapter**.
2. **Certification of Appreciation** awarded to **Dr. Lavanya Pamulaparty** for her Instrumental role in making the **Coursera for Corona Virus (C4CV) initiative a grand success**.
3. **Dr. Lavanya Pampulaparty**, Professor and Head of the Department was awarded “**The Global education champions award 2024-2025**” for her exceptional dedication and positive influence in shaping young Indian professionals on 16th April 2024 by the **Global Education and Careers Forum**.
4. **Dr. Sharada Varalakshmi** was appreciated for being a **Session Chair person for an International Conference on Applied Mathematics and Advanced Data Analytics for industry 5.0** organized by **VNR Vignana Jyothi Institute of engineering and Technology** on 25th April 2024.
5. **Dr. Diana Moses** was invited as the session speaker for “**Outcome Based Education and Student Centered Learning in Higher Education Institutions**” on 12th January 2024 organized by **AMET University, Chennai**.
6. **Mrs. Unnati Khanapurkar** has been awarded as “**Expert Level Instructor excellence**” in recognition to her outstanding contributions to **CISCO Networking Academy**.
7. **Mr. MVDS Krishnamurty** has received **Innovation Ambassador award** from **MoE, Govt of India**.
8. **Dr. T. Praveen Kumar** was awarded with **Ph.D** for his thesis entitled “**Multimodal aspect based sentimental analysis**”. from **JNTU Hyderabad**.
9. **Ph.D** awarded to **Dr. Saritha** from **GITAM University** entitled “**A Novel Design of Chaapche and Wolf based wide Dansing System Techniques to Enhance the Security for the Hadoop Application in Bigdata**”.
10. **Dr. SK. Shruthi** was the resource person for the **STTP** on “**AI&ML for Internet of Things**” organized by **IETE, Pune** from 1/8/2023 to 30/8/2023.

11. **Mr. M.V.D.S Krishna Murthy** has attended IIC Regional Meet 2023 presented by the Ministry of Education's Innovation Cell and the All India Council for Technical Education, on 11th December in Hyderabad.
12. **Dr. M V D S Krishna Murty** was awarded with Ph.D for his thesis entitled “**Improved Adhoc On-Demand Distance Vector Routing System Based On Machine Learning Model For Enhanced Network Performance In Mobile Adhoc Networks**” from JNTU Hyderabad.
13. **Dr. Diana Moses** was invited as the session speaker for “**AI Prompt**” on 22nd March 2024 organized by MCET in association with ISTE, IETE, Part of the One month International Level Certification course on "Remotely monitored, controlled and real-time implementation of Incubation parameters via cutting edge IoT and Cloud Technology.
